Subject: Fwd: bruise

Just arrived in Ohio with ***** my arm/wrist hurt and upon review they were still bruised from police harsh handling of me 30 hours ago. They locked me in a cell with a woman charged with assault with a lethal weapon & did not feed me

worse they could have just asked me to leave instead they would not let me answer the question. When I went to get water they trapped me in an area that did not have security cameras. They are bad people. Rob bullied the police to arrest me. This needs to end. I do not deserve to be abused. I just want respect.

Sir, do you have 2 minutes to tell someone to "end" this.
