

## **Canvas Systems Makes Data Center and Server Rentals Easier with Launch of ServerRental.net**

Norcross, GA, September 16, 2010 – Canvas Systems is proud to announce the launch of [www.serverrental.net](http://www.serverrental.net). Already a major player in the data center equipment market for new and refurbished equipment, Canvas has now made it easier for companies to quickly, affordably and more efficiently gain access to data center equipment rentals. Backed by a dedicated team of engineers and logistics experts, [www.serverrental.net](http://www.serverrental.net) provides access to the widest array of data center equipment – in any configuration and typically shipped within 24 hours. With over \$100 million in inventory, Canvas provides current data center equipment, as well as prior generation machines, from Sun, HP, IBM, Dell, Intel, Cisco, EMC<sup>2</sup> and Hitachi.

“The need for data center rental equipment is on the rise, as evidenced by the significant spike in the number of inquiries from current and new customers over the past year,” Canvas Short-Term Programs Manager Dave Rollo said. “By offering faster access and the ability to rent our server and data center equipment from anywhere between 1 – 365 days, we are providing the tangible solution for data center migrations, proof of concept, disaster recovery, flex gear and data storage projects.”

### **About Canvas Systems:**

Founded in 1998, Canvas Systems is the leading global and independent supplier of IT Hardware and Support – providing the largest channel alternative for data center and hardware services. Based in Norcross, Georgia, Canvas also has regional headquarters in the United Kingdom and Netherlands.
