Highest quality, purity and skin compatibility have been our main focus. As well as natural mineral and organic colouring agents, SANTE Naturkosmetik contains particularly skin-friendly botanical oils and waxes. Precious extracts of organically grown plants provide gentle care for your skin.

As a rule, SANTE Naturkosmetik does not use any ingredients of known allergenic potential. The skin compatibility of all our products has been confirmed by dermatological tests performed exclusively on voluntary test persons.

Certified Quality "Made in Germany"

The new decorative cosmetics line of SANTE Naturkosmetik, developed and manufactured in Germany, is subject to a careful selection of raw materials and a manufacturing process applying stringent quality criteria including extensive testing. Only when these have been met will the products be released for sale.
