

Iris Data Services Opens Office in Miami Center Leading Electronic Discovery Company Adds Miami Litigation Support Operations

MIAMI, October 11, 2010 — Iris Data Services, a leading provider of eDiscovery solutions, announced today that it has opened a new production facility at the Miami Center at 201 South Biscayne Boulevard, 12th Floor, Miami, FL 33131, (305) 677-9062. This is a full service litigation support office that includes paper, scanning and electronic discovery processing. Iris Data Services is a leading supplier of paper and electronic discovery solutions including eDiscovery, computer forensics, attorney document review, and online hosting utilizing their proprietary review platform, *Unify*TM.

The new Iris office and data center sits on a fully redundant power grid, employs generator backup, and has digital video surveillance as well as manned security 24 hours a day, 365 days per year. Iris operates 100Mbps of daily redundant bandwidth provided by two separate ISPs.

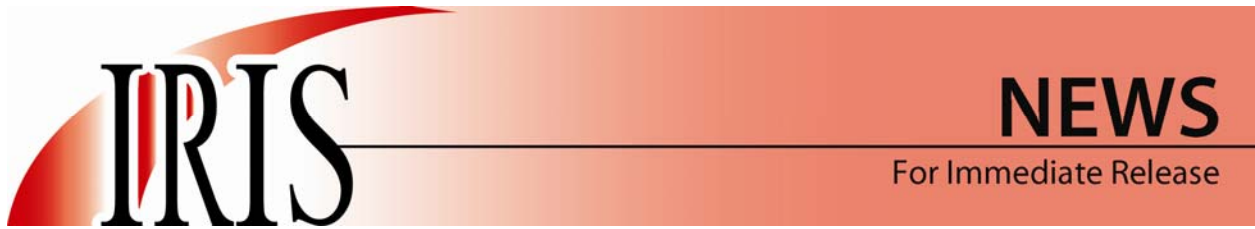

“The Miami Center puts us in the heart of Miami’s central business district,” said Damon Goduto, Iris’ Vice President of Sales. “We are neighbors to many downtown law firms and Iris will be able to provide extremely fast turn around times on their projects. We have the capability to locally process over 1TB of native documents per day and TIFF one million pages every 24 hours.”

“Our new office in Miami continues our company growth in cities where we see law firms and corporate legal departments with growing amounts of complex litigation,” said the president of Iris, Major Baisden. “Offering full discovery services makes it easy for our clients to centralize all aspect of discovery for a particular case while meeting their demanding deadlines.”
