From resumes and job orders to financial statements 1Staff provides a complete solution built in Microsoft Dynamics®. 1Staff allows you to minimize costs by leveraging existing Microsoft technology investments, deliver business insight through familiar productivity tools and bring analytics to the masses.

CLEAR BUSINESS INSIGHT

1Staff offers extremely flexible reporting and analysis by any dimension. Exact margin analysis as each timesheet can identify fees, actual payroll taxes, billings, discounts, burden rates, and other accounts payable costs. 1Staff's pre-built business intelligence includes dashboards, Excel analysis, OLAP cubes, and more.

USER ADOPTION AND CONSISTENT BEST PRACTICES

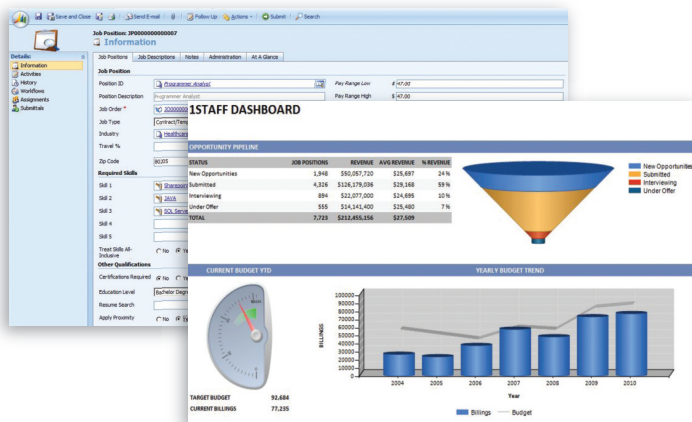

Streamline and automate your sales processes and enable sales staff to create a single view of the customer to help ensure a shorter sales cycle, higher close rates, and improved customer retention. Give sales professionals fast access to useful data so they can work efficiently and spend more time selling. Recruiters will benefit from online document storage and access using Windows SharePoint® Services, resume parsing and advanced search features to fill job orders faster.

LOOKING TO YOUR FUTURE

Our customers span multiple continents so you can take advantage of multi-currency and multi-language capabilities. Tens of thousands of customers utilize the Microsoft Dynamics platform which allows you to not only find more experienced staff, you also benefit from the large online Dynamics community.

BEST OF BREED OR ALL-IN-ONE

Integrate either the 1Staff Front Office or Back Office with your existing systems or use both for an end-to-end Microsoft Dynamics solution.

“Our 1Staff for Microsoft Dynamics solution has helped launch our operation to peak efficiency and has provided us with the intelligence, flexibility and scalability to stay there.”

Jamie Raymond, President, Stratus Tech
