**LAS VEGAS MARRIOTT PARTNERS WITH DRAGON RIDGE COUNTRY CLUB TO  
OFFER EXCLUSIVE RATE AND LESSONS**

*Special hotel package allows guests to play at exclusive country club and provides discounted lessons at Jack Nicklaus Golf Academy.*

Las Vegas, NV – (10/04/10) – Las Vegas is home to many elite clubs and golf courses where the general public is unlikely to set foot. One of the premier ‘member-only’ venues in the city is the Dragon Ridge Country Club, which offers top-notch golf just minutes from the Las Vegas Strip. Guests staying at the Las Vegas Marriott who reserve the hotel’s Members for a Day can book rounds of golf at the Dragon Ridge Country Club or enjoy a 20% discount at the famed Jack Nicklaus Academy of Golf. Guests will also receive breakfast for two. To book the Members for a Day Package online, visit [www.marriott.com/LASST](http://www.marriott.com/LASST)

The par 72, 6,975 yard Dragon Ridge golf course challenges players of all levels. Golfers will enjoy the course’s use of its natural surroundings as it incorporates canyons and hillsides throughout 18 holes. If guests need their golf game tuned, they can take advantage of the Jack Nicklaus Academy of Golf. Trained professionals utilize the latest in high-tech gadgetry to analyze and tweak every aspect of a swing. Golfers will be able to drive the ball longer and more accurately after only a few sessions. It is perfect for players who want to be at the top of their game—which they’ll need to be to take on the challenge of a renowned course like Dragon Ridge.

Guests at the Las Vegas Marriott Hotel who reserve the Member for a Day Package will receive an email detailing how to schedule a round of golf at the Dragon Ridge Country Club. Marriott Hotel guests pay a special rate \$149 per night for accommodations and \$195 per round of golf at this highly exclusive course. The Member for a Day Package is available seven days a week, but the Academy of Golf and the golf course are both closed on Tuesdays.

Interested guests can reserve the package online at
