

## Wicked Smart Features

### Standard Features

 **6V/12V COMPATIBILITY**  
Charges 6V & 12V batteries  
G750, G1100 & G3500

 **AUTO-MEMORY**  
Returns to last selected mode when restarted

 **FULLY INTERACTIVE**  
Automatically adjusts itself to changing current needs

 **DESIGNED FOR SAFETY**  
Reverse polarity, short circuit, open circuit, spark proof, overheat, overcurrent & overcharge

 **MULTIPLE BATTERY CHEMISTRY**  
Safely charges Wet, Gel, MF & AGM batteries

 **EXTENDABLE CONNECTORS**  
Plug-n-play connectors for easy accessory changes

### Added Features Vary By Model

 **RECOVERY MODE**  
Recovers deeply discharged & sulphated batteries with pulse charging

 **13.6V EQUALIZATION & SUPPLY MODE**  
Charge mode for maximizing battery capacity, reviving low voltage batteries & can act as a power supply

 **14.4V SILENT NIGHT MODE**  
Disables the charger's internal fan for quiet nighttime operation

### POWERED BY

#### NOCO VosFX Processor

The VosFX Processor is a revolutionary smart processor utilizing sophisticated levels of intelligence to alter the charge process, based on organic feedback from the battery, to extend battery life. The VosFX Processor quickly and efficiently makes decisions on how to charge the battery without risking user safety or damage to the battery.

## 5 Year Limited Warranty

## Automatically Diagnoses, Recovers, Charges & Maintains Your Batteries!

**Now that's Smart...Wicked Smart!**

### Why Choose NOCO Genius Multi-Purpose Battery Chargers?

Because NOCO Genius Multi-Purpose Battery Chargers intelligently diagnose, recover, charge and maintain your batteries. Not only are they simple and easy to use, but they can be used on virtually any vehicle with a battery. Whether you have a Motorcycle, Car, ATV, UTV, Tractor, Boat, RV, Snowmobile or Truck, the NOCO Genius Multi-Purpose Battery Chargers always properly charge and maintain your batteries. The result is longer battery life and improved battery capacity. If that wasn't enough, here are more reasons to choose our battery chargers:

#### Small, Lightweight & Portable

Not only are our battery chargers lightweight and compact, but they also consume less energy. Our smart technology has enabled us to design a versatile battery charger that is both portable and energy-efficient.

#### Faster Charging

Need to charge batteries faster? Our smart design allows for charging batteries 2X faster than traditional linear battery chargers.

#### Safe To Use

We designed our battery chargers with your safety in mind. Our battery chargers are fortified with several unique safety features to protect you, your battery and the battery charger.

#### Worry-Free Operation

Just plug in the battery charger and forget about your batteries. Our revolutionary smart processor utilizes sophisticated levels of intelligence to alter the charge process so you don't have to.

**G750** **.75A** (750mA)  
6V & 12V

#### Charging Steps

#### G750 Overview

The G750 is a smart, 5 Step, fully automatic switch-mode battery charger and maintainer. The G750 is best for small battery applications from 1.2-30Ah, such as charging your Motorcycle, ATV, Jet Ski or Snowmobile. In addition to charging, the G750 can effectively maintain any 6V or 12V batteries in larger applications, such as Cars, RVs, Boats and Trucks.

#### Features

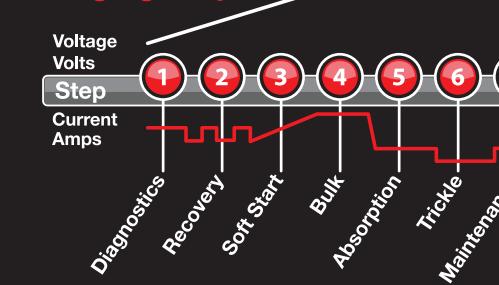

WICKED COMPACT,  
WICKED EFFICIENT

**G1100** **1.1A** (1100mA)  
6V & 12V

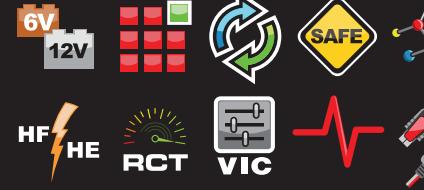

#### Charging Steps

#### G1100 Overview

The G1100 is a smart, 7 Step, fully automatic switch-mode battery charger and maintainer. The G1100 restores batteries to their original capacity, recovers slightly sulfated batteries, charges batteries in cold climates, rescues drained batteries, and provides maintenance charging to increase battery life. A versatile battery charger that provides charging modes for both large and small batteries from 1.2-120Ah, such as Cars, RVs, Boats and Trucks, as well as for Motorcycles, ATVs, UTVs, Jet Skis or Snowmobiles.

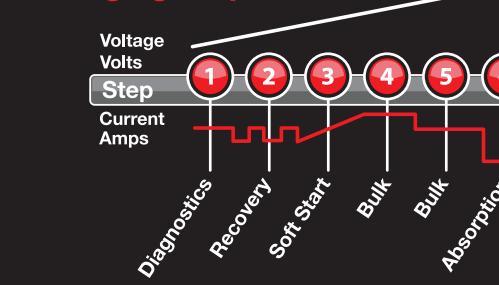

#### Features

**G3500** **3.5A** (3500mA)  
6V & 12V

#### Charging Steps

#### G3500 Overview

The G3500 is a smart, 8 Step, fully automatic switch-mode battery charger and maintainer. The G3500 restores batteries to their original capacity, recovers slightly sulfated batteries, charges batteries in cold climates, rescues drained batteries, and provides maintenance charging to increase battery life. A powerful battery charger with specialized charging modes for recovering severely drained batteries that will not accept a normal charge. Suitable for most 12V and 24V battery capacities from 14-230Ah, such as Motorcycles, ATVs, UTVs, Snowmobiles, Jet Skis, Cars, RVs, Boats and Trucks.

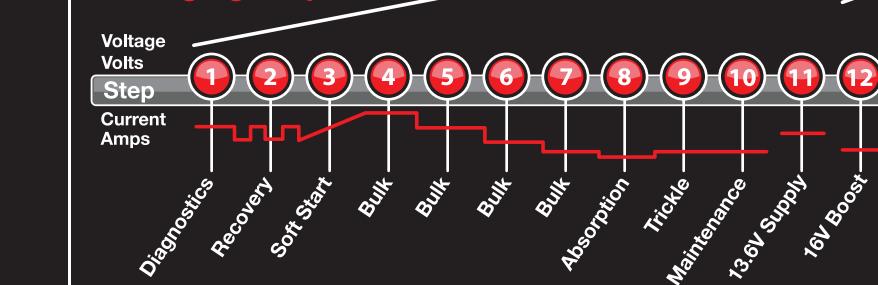

#### Features

**G7200** **7.2A** (7200mA)  
12V & 24V

#### Charging Steps

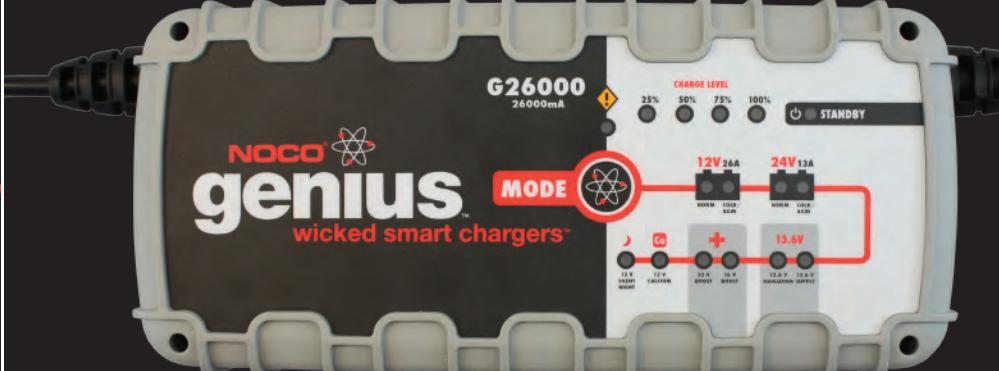

#### G7200 Overview

The G7200 is a smart, 12 Step, fully automatic switch-mode battery charger and maintainer. The G7200 restores batteries to their original capacity, recovers slightly sulfated batteries, charges batteries in cold climates, rescues drained batteries, and provides maintenance charging to increase battery life. A powerful battery charger with specialized charging modes for recovering severely drained batteries that will not accept a normal charge. Suitable for most 12V and 24V battery capacities from 14-230Ah, such as Motorcycles, ATVs, UTVs, Snowmobiles, Jet Skis, Cars, RVs, Boats and Trucks.

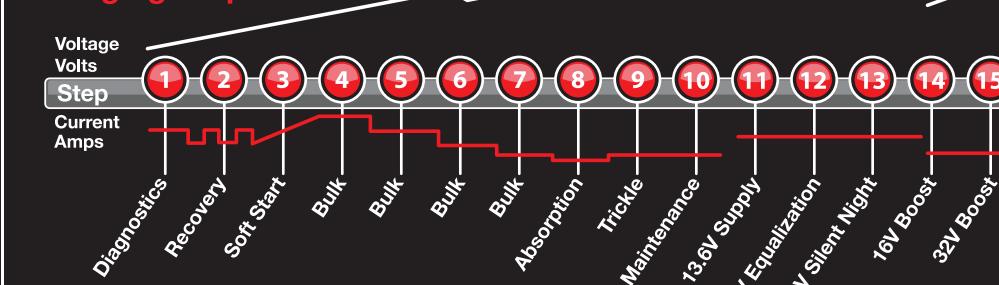

#### Features

**G26000** **26A** (26000mA)  
12V & 24V

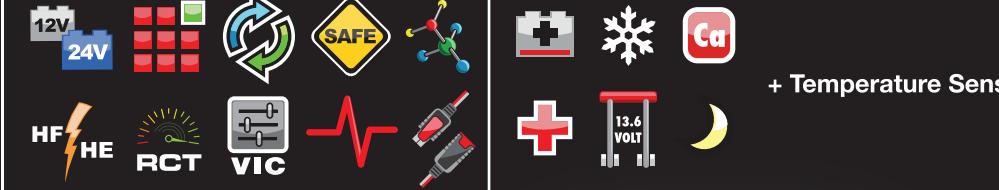

#### Charging Steps

#### G26000 Overview

The G26000 is a smart, 15 Step, fully automatic switch-mode battery charger and maintainer. The G26000 restores batteries to their original capacity, recovers slightly sulfated batteries, charges batteries in cold climates, rescues drained batteries, and provides maintenance charging to increase battery life. A powerful battery charger with specialized charging modes for recovering severely drained batteries that will not accept a normal charge. Suitable for most 12V and 24V battery capacities from 25-500Ah, such as Motorcycles, ATVs, UTVs, Snowmobiles, Jet Skis, Cars, RVs, Boats and Trucks.
