Blender Bottle®

Think INSIDE the bottle

Patented BlenderBall® mixes as you shake!

Nicknames:
"spring thingy"
"little whipper"
"magic ball"

Smooth never tasted so good!

Tired of sifting lumps through your teeth? Now there's a better way. With the BlenderBottle® portable mixer, drinks taste better because they're mixed better.

Made of surgical-grade stainless steel, the BlenderBall® wire whisk makes short work of your mixing needs. Simply drop the ball in with your ingredients and shake. The ball is designed to remain in the bottle until you've enjoyed the contents.

Simpler is better. No batteries or electricity means portability and dependability. Use it in the kitchen, at the office, at the gym, when you travel, or on the go. Did we mention it also makes a great water bottle? Now you can make great-tasting drinks anytime, anywhere. Life is about to taste a whole lot better!

No Ordinary Bottle
