

**Everything you want in Synthetic Grass
with Added Environmental Responsibility.**

Environmental responsibility comes in many forms. When useful products can be produced from materials destined for disposal we all win. All manufacturing has high quality waste by nature of process. Why not put it back into the system? The result is a beautiful, high performance turf product that also conserves water and can be used in endless landscape applications.

XGrass™ Enviro is a **NEW** line of synthetic grass products now available from XGrass™. Manufactured from 100% internal production waste XGrass™ Enviro is a responsible fit for a variety of landscape applications.

Ideal for

- Playgrounds
- Business Properties
- Residential Lawns
- Roof Top Landscapes
- Commercial landscapes
- Parks and Community areas

Benefits

- Manufactured with 70 to 100% Recycled material
- Recyclable
- Conserves water and eliminates watering expense
- Surface free of pesticides and chemical treatments
- Mud, Dirt, and Dust Free
- Eliminates maintenance costs such as mowing, sodding or weeding
- Anti-Microbial surface
- Green All Year Long!
- Thatch layer adds authentic appearance
- Provides Excellent Surface Drainage

Like every XGrass™ product, XGrass™ Enviro is backed by the best. All XGrass™ Enviro products include the eco-friendly DuraFlo backing.

DuraFlo backing

- All polyolefin backing system
- 100% recyclable
- *Permeable:* More than twice as permeable as traditional urethane and far less likely to clog than hole-punched products
- *Dimensionally stable:* Polyolefins absorb no moisture, preventing expansion and contraction
- *Soft and Pliable:* Forms to the contours of the land without producing wrinkles

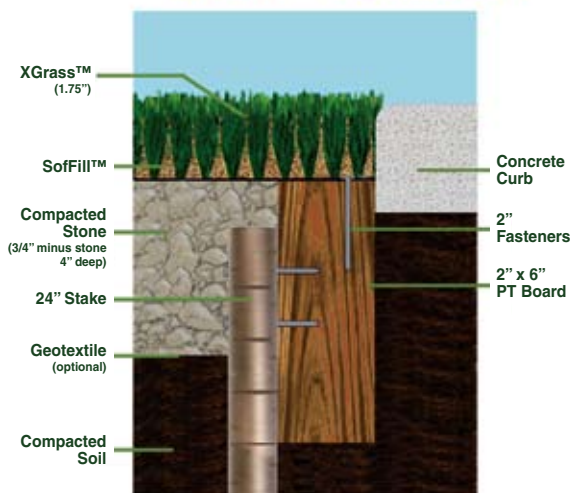

LEED Points
