

U.S. Department of Justice

Federal Bureau of Investigation

Clarksburg, WV 26306

October 1, 2010

Mr. Brian Skiba
MaxID Corp
2731 Prosperity Avenue, Suite C
Fairfax, VA 22031

Dear Mr. Skiba:

The Federal Bureau of Investigation (FBI) Criminal Justice Information Services (CJIS) Division has completed a review of the following test data:

Submitting Vendor	Equipment
MaxID Corp	iDL500 single finger livescan capture device, incorporating the Futronic FS88, at 500ppi (PIV-071006)

This review was conducted by representatives of the FBI and the MITRE Corporation's image processing laboratory located in Bedford, Massachusetts. Based on the results of this review, the FBI certifies that the equipment described above is in compliance with the following FBI CJIS Division's Integrated Automated Fingerprint Identification System Image Quality Specifications (IQS):

Personal Identity Verification (PIV) Single Finger Capture Device Specifications

Please note, the certification process does not endorse one product over any other product and only demonstrates that the product meets FBI standards. Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the IQS over time. As equipment can degrade, the FBI recommends that your company assist customers in the establishment of quality assurance programs and appropriate maintenance schedules for your products.

Please direct any questions regarding this certification to Mr. John M. Manzo at (304) 625-4039 or by email at john.manzo@leo.gov.

Sincerely yours,

for Jerome M. Pender
Deputy Assistant Director
Information Services Branch
Criminal Justice Information Services Division
