Inn-to-Inn Sea Kayaking Circumnavigation

NEW TRIP HIGHLIGHTS

On any given day during the Santorini high season 50,000 town-based tourists enjoy the island's world class wine, shopping, sunsets and sea vistas. We certainly savor those essential bits of the Santorini experience, but unlike other, we don't stop there. We make sure to escape the populated tourist scene to encounter the entire essence of the island. After getting our fill of the topside of the island, we'll hop into kayaks to experience the peace, serenity and breathtaking beauty of the sea below. We'll paddle all the way around Santorini gaining unique views, meeting seafaring locals and experiencing thrills that elude the tourists above. We'll also circumnavigate the neighboring island of Thirassia, a veritable "time capsule" of traditional Greek island culture. The Thirassia experience allows travelers to detach from the crowded tourist scene, and plug into authentic Greek culture. In addition to venturing off the beaten path, our trip distinguishes itself through our impassioned and knowledgeable guides. To guide this trip, high level kayak instructional skills alone do not suffice. All of our guides, in addition to their paddling skills, are very well versed in island history, the local community and, of course, know all the must visit sites. Whereas other visitors experience only the most publicized highpoints of Santorini, we make sure to encounter this unforgettable and totally unique island in its entirety.
