

IUNIVERSE POLICY FOR REVIEW COPIES

It is the policy of the iUniverse Promotional Services Department to send out complimentary review copies to all **working members of the media** upon request for authors who have purchased Promotional Packages. **We will NOT honor requests from authors, agents, book clubs, retailers, publishers, or publicists.** **The working media is defined as a print or electronic journalist working either full- or part-time for an established media outlet.** Professors may also request one desk copy if they have a legitimate, related course use for the book.

Things to Remember:

- All review copies are to be sent to media outlet addresses, and not to media member's home addresses.
- All review copy requests MUST come directly from the media member or professor.
- An author may forward an e-mail review copy request *in its entirety* (headers included) from a media member/professor and it will be honored. If this request does not contain the proper information, we will seek the information by e-mail. Once received, the book will be shipped.
- All media requests must contain a physical street address (no post office boxes) for shipping of the review copy of the book.
- All review copies will be ordered and shipped according to our regular and normal shipping policies (it takes 5-10 business days from the time of the request for the media to receive the book). All review copies are softcover copies unless only a hardcover is available.
- We cannot and will not place any other materials with the book (for example, a press release or business card cannot be shipped with the book).
- **We will not replace copies of books sent out by authors prior to receiving our express permission.**
- We will NOT honor requests from authors, agents, book clubs, retailers, publishers, or publicists.
- We limit the review copies to 20 books per title.
- We will NOT honor requests from libraries.

***If you are faxing your press release to the media on your own, you must remove our company information, including our telephone number and e-mail address, from the top of your press release. It is a violation of federal law for us to distribute press releases to anyone who has asked to be removed from our distribution list. We can be held liable for any faxes that are distributed under our name, thus such information must be removed before the releases are distributed. This does not apply to e-mails and press releases mailed via postal mail, however we ask that authors refrain from distributing their press releases via "spam" e-mail.
