

ABOUT MATERNITIQUE

Maternitique is an online maternity store offering safe, natural and stylish pregnancy, maternity and baby products. Our mission is to help women look and feel their best, while doing their best for baby. To this end, we offer carefully vetted products designed for safe use during pregnancy, birth, breastfeeding and motherhood.

Founded in 2007 by a mom concerned about toxic ingredients in cosmetics that affect both fetal and environmental health, Maternitique is now the go-to destination for women from Park Avenue to Beverly Hills seeking the finest in safe, natural maternity.

WHAT WE DO

Maternitique chooses brands that avoid ingredients identified as reproductive toxins (phthalates, for example), carcinogens or teratogens (substances that cause or contribute to birth defects). We prefer manufacturers who are signers of The Campaign for Safe Cosmetics and we educate ourselves about ingredients in the Cosmetic Safety Database maintained by Environmental Working Group.

If products include herbs or nutritional supplements, we ensure that they have been formulated with medical oversight and are recommended by midwives and doctors for safe use during pregnancy.

WHY WE DO IT

A recent analysis of newborn umbilical cord blood revealed an average of 200 chemicals, including 180 known to cause cancer, present in babies at birth. Women used to be told that the placenta would filter out dangerous chemicals absorbed by skin, breathed in our air, and consumed. But now we know that's not entirely true.

For healthier, safer babies, we have to make healthier, safer choices. Maternitique's screened selection makes it easy for women to create safe beauty, skin care and nutritional regimens when they are trying to conceive, are pregnant, or are nursing.

MATERNITIQUE AT A GLANCE

POSTPARTUM TIPS FOR NEW MOMS

How can you make the postpartum experience less stressful? This should be the happiest time in my life. That, says Shoshana Bennett, Ph.D., is jus one of the fantasies that new mothers buy into. Bennett, a clinical psychologist who has survived two life-threatening postpartum depressions, knows how easy it is to set vourself up to feel inadequate.

Tara Bloom, Maternitique Founder & CEO quoted in **SheKnows** New Mom Survival Guide, August 2009
