**A Technological Breakthrough
for a Better Night's Sleep**

Wiz Pill, the newest, most advanced sleep aid pillow, utilizes scientific and medical research in a way never before seen in the U.S. market. Through a multitude of sleep encouraging features such as bone conduction transducers, sleep-inducing sound waves, music therapy, oxygen therapy, and ergonomic design, Wiz Pill's exceptional innovations promote a healthier way of living for U.S. consumers.

Sound Therapy

The Wiz Pill is equipped with a detachable MP3 player that can be used in three different ways: headphones, conduction transducers or through a separately sold eye mask that sends sounds through the front of the skull and eyes. The mp3 player has sleep-inducing, study-aiding, rest-aiding, concentration-aiding sound modes.

Osteophony Therapy

Osteophony technology delivers sound through a special vibration direct to the bones of the skull into the inner ear. Wiz Pill supports different brain-waves functions such as meditation rest, learning, focusing, good sleep, sweet sleep and overcoming sleepiness to deliver high-quality relaxation.

Oxygen Therapy

Wiz Pill incorporates an oxygen generator inside the pillow to create clean, clear oxygen and guarantee a more refreshing night's sleep. This extra circulation cools down the head to reduce head and sweat during sleep and help lengthen life, improve activity, improve mental skills, decrease respiratory symptoms, decrease hospital visits, improve quality of life.

Ergonomic Design

Without a high level of comfort, deep and healthy sleep can be very difficult to accomplish. Wiz Pill's ergonomic design works with the basic mechanics of the human form to cradle the body into a peaceful slumber. It also protects against cervical vertebral and relieves snoring by keeping the airway open.

Aromatherapy Benefits

Aromatherapy is known to be effective in relieving emotional and mental distress by acting directly on the nervous system. Wiz Pill users feel full an uplifting, painless and relaxed frame of mind, which helps improve physical wellbeing, reduce stress and anxiety, and strengthen the immune system.

Antibacterial Material

A pillow is a common habitat for dust mites and bacteria that cause allergic reactions and diseases as asthma, rhinitis, conjunctivitis, atopic dermatitis. Wiz Pill incorporates a futuristic anti-bacterial material for the pillow that fights bacteria. Its ability to circulate air and add oxygen to the room also controls body temperature, which reduces moisture, often a cause of bacteria.

Better Sleep
for a Healthy
Living

Recent studies show that approximately half of Americans and Europeans suffer from insomnia, which is clinically defined as difficulty getting to sleep or staying asleep, or having non-refreshing sleep. Wiz Pill incorporates a variety of proven scientific techniques to overcome insomnia in a safe, non-toxic, comfortable way.
