The 10 Secrets You Need to Know About Your Injury Case Before You Call A Lawyer

**Mark C. Blane, APC
Personal Injury Attorney**

Be Proactive and Educate Yourself

San Diego-based personal injury attorney, Mark Blane says most California injury victims know little or nothing about their legal rights let alone knowing what questions they'll need to ask their lawyer—if in fact, they need an attorney, at all. And so begins Chapter One of this provocative and fact-filled little book.

Blane believes that if a victim knows the top ten secrets presented in his book, they will better understand their case and not become mired in a whirlwind of doctors' visits, physical therapy sessions, hospitalization and less than honorable insurance companies who may be trying to rush a settlement. Alternatively, Blane warns victims against delay and deny insurance company tactics which could force cash-strapped victims into accepting a lower settlement.

Finally, Blane's book quickly and succinctly educates victims about the uniqueness of their case and arms them with the essential clear and necessary information.
