Rescue your Videotapes!

Are your video tapes safe? Not really – there are plenty of threats to your valuable memories: low life expectancy (even if stored in optimum conditions), magnetic fields, loss of quality due to abrasion, chewed-up tape, and the end of production for VCRs could mean it's the end of the line for your recordings!

Save your precious recordings from VHS cassettes and other tape formats with MAGIX Video easy** and the practical USB video converter in just a few clicks.

- ▶ The only real all-around solution on the market: includes RCA lead
- ▶ Simply plug the USB video converter into your PC and VCR
- ▶ Launch MAGIX Video easy** and transfer your movies to DVD – it doesn't get any easier than this!

Highlights:

- ▶ **NEW** Faster results thanks to **MAGIX Video easy****, optimized specifically for beginners
- ▶ **NEW** Very clearly laid-out user interface with large buttons
- ▶ Suitable for: **VHS, Video 8, S-VHS, Hi8, Betamax** or any other tape format
- ▶ Complete solution **including USB video converter and RCA lead connecting** directly to the VCR
- ▶ **Improve the quality of old recordings** (brightness, contrast, color, etc.)
- ▶ Export to **DVD, YouTube®** and as **files**
