

Unbelievably FairSM Wireless

Cox is redefining the meaning of “fairness” for the wireless industry. Customers are tired of paying for wireless minutes they don’t use. With MoneyBack MinutesSM, Cox automatically gives customers money back on their monthly bill for unused minutes – up to \$20 every month! And with other great features, like Bundle BenefitsSM, free Usage AlertsSM, and unlimited calling between the customer’s Cox Digital Telephone and Cox Wireless phone, Cox customers will enjoy a level of service unmatched in the industry. And speaking of service, customers visiting our new Cox Solutions Stores can learn more about their Cox services by participating in hands-on learning sessions led by our expertly trained product educators. Below, we invite you to learn more about our “Unbelievably Fair” wireless service.
