whirlpool systems

Designed for ultimate relaxation, our whirlpool systems are also ideal for relieving muscle tension, reducing fatigue and improving blood circulation.

They are supplied with an adjustable 12 jet system to provide maximum benefit to your whole body, as well as 2 power regulators to control the flow.

In addition, the ultra reliable and quiet 1.25HP self draining pump with its state of the art pipe work system gives effective system drainage and ensures the highest levels of hygiene.

air spa systems

Our exclusive air spa systems are specifically designed to gently invigorate and massage the entire body as well as improving your blood circulation.

The precise 12 jet layout design provides a myriad of air bubbles bursting on the skin stimulating blood flow and exercising muscles bringing tingling refreshment to the whole body.

The powerful 600w air blower with integral safety feature and individual non return valves in each jet provides the highest levels of performance and hygiene.

The air jets, manufactured from solid brass, have removable chrome plated heads for cleaning with side outlets providing a wider air bubble distribution.

hydrotherapy systems

If you are looking for the complete water therapy experience then our luxury hydrotherapy systems are just that.

These professional systems combine the variable power and relaxation of a whirlpool with the stimulation and invigoration of an air spa into one superb hydrotherapy system to suit every mood.

- manufactured in high quality 4mm acrylic
- prices exclude taps & waste fittings
- baths are supplied without tap holes
- optional front & end panels can be found on page 83
