

Fleet Management Software Solutions

Taking your fleet to a whole new level.

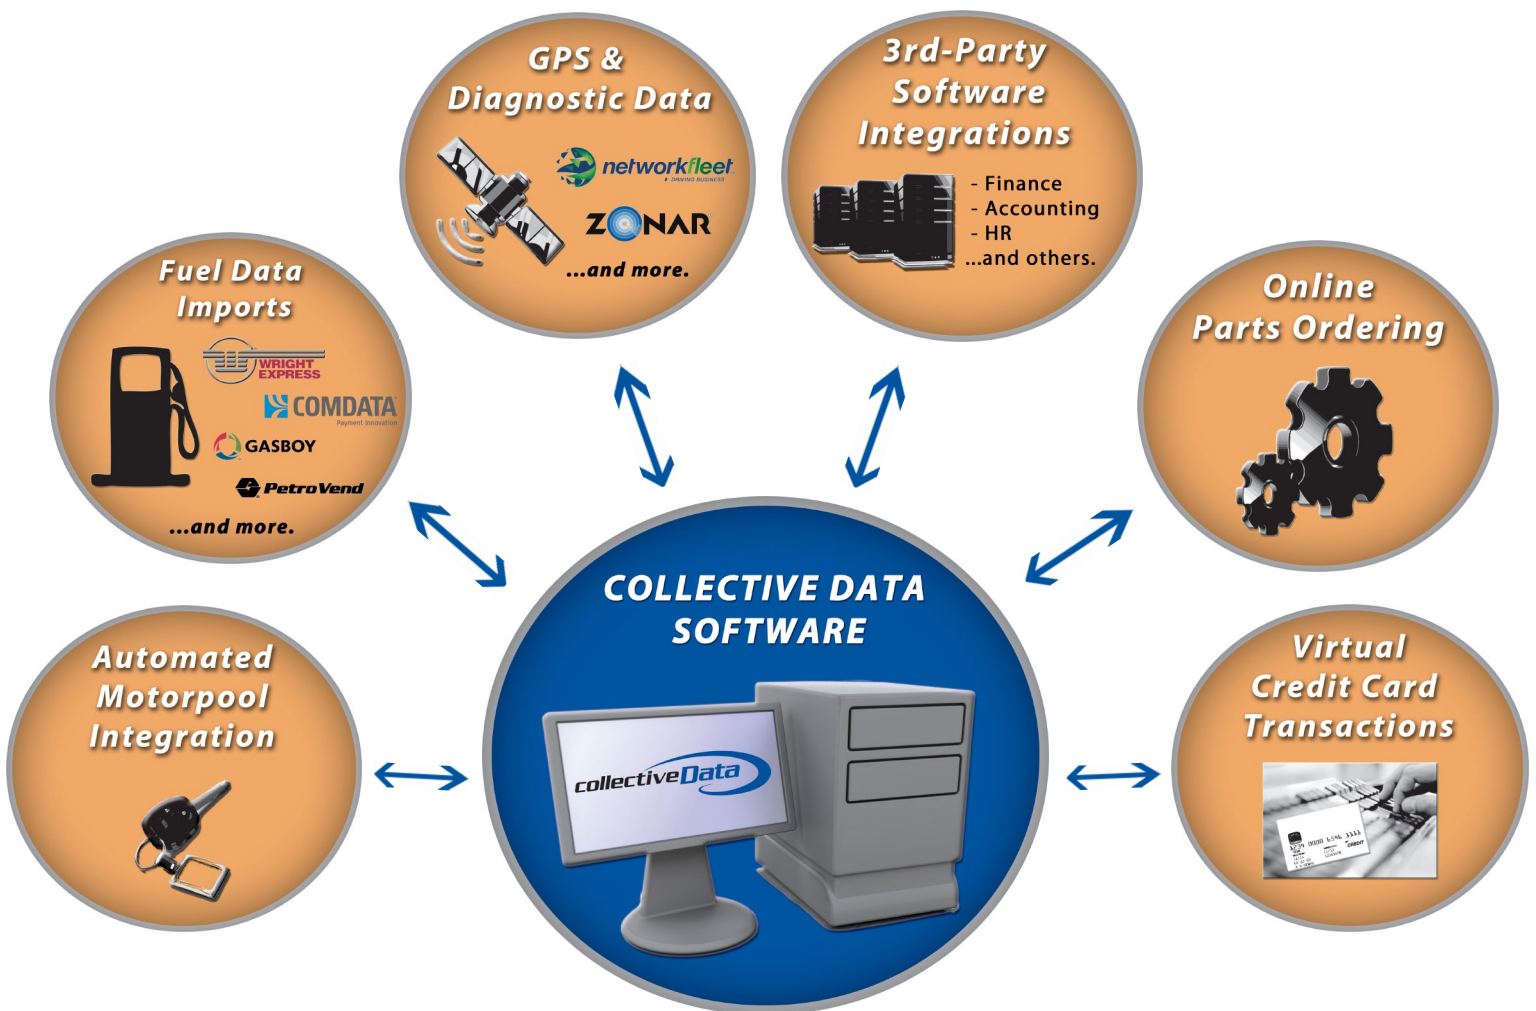

Software solutions meeting the needs of today's fleets.

Rising costs, tight regulations, and shrinking budgets are all playing a roll in how a modern fleet runs their operation. Fleet managers need a comprehensive, usable system that helps them manage and make strategic decisions at a fleet-wide level.

Led by a vision to be the "data hub" of a fleet operation, Collective Data has helped government & municipal, construction, utility, telecom, and various private industry fleets implement a software package that helps push their level of efficiency and productivity to a whole new level.

WE BRING ALL OF YOUR FLEET DATA INTO ONE SYSTEM.

YOUR SUCCESS IS OUR GOAL.

“I can’t imagine running the fleet today without Collective Data. The software follows my process and the information is readily available to make proactive, cost-saving decisions.”

- *Patrick Bartole, Fleet Manager, New Jersey City University*

“We were able to compile information from three systems into one and eliminate duplicate work.”

- *Julie Snyder, Equipment Asset Coordinator, Croell Redi-Mix*

“The efficiency of the software has allowed me to spend my time doing other things that benefit the fleet and the company.”

- *Dave Leicht, Fleet Manager, Emergycare Inc.*

“The Collective Data program has been responsible for a significant part of my overall success in simply getting my job done! A number of specialized reports have allowed me to communicate essential information to all the departments within our tribal government and tribal enterprises, and it has allowed our organization to be much more efficient.”

- *Lorri Smith, Ute Mountain Tribe Fleet Manager*
