*New Legal Software with Advanced Tools for **Pennsylvania Family Law Attorneys***

Dec 09, 2010, North Brunswick, New Jersey - Easy Soft, a leading legal practice management software and services provider, is pleased to announce the launch of [EzSupport-PA](#), family law software for Pennsylvania lawyers.

Thousands of law firms rely on EasySoft family law software products. To help Pennsylvania family law attorneys, Easy Soft has developed [EzSupport-PA](#), a practice specific product that automates important aspects of Pennsylvania divorce and other family law practice document preparation.

Famous British science fiction writer Arthur C. Clarke once said, “Any sufficiently advanced technology is indistinguishable from magic.” The quote aptly describes Easy Soft’s latest software program. [EzSupport-PA](#) incorporates technology certain to make Pennsylvania family law attorneys feel like wizards.

Tasks that formerly consumed huge blocks of time can now be performed in seconds. **EzSupport-PA** software contains a host of productivity features, support worksheets, financial computation tools and built-in documents to help busy Pennsylvania family law attorneys save time, money, and gain a competitive edge. Known for innovation and technological tools, Easy Soft once again meets the growing demands of legal software users with the launch of **EzSupport-PA**.

“Survival in today’s economic climate means that businesses everywhere must take steps to ensure they are operating at top efficiency,” stated Anil Narula, President of Easy Soft.

Rick Kabra, Executive Vice President at Easy Soft added, “Increased competition is another factor that weighs on PA Family Lawyers.” He emphasized, “The advanced tools in our new [EzSupport-PA](#) program not only give Family attorneys capabilities they only dreamed of until now, but also help them increase productivity and profitability.
