

	EnergyCAP Enterprise	EnergyCAP Express
Utility Bill Tracking		
Account Tracking. Track any commodity, level, and type of bill detail, and standard and deregulated bills (separate LDC/supplier charges). Includes TreeView navigation, memo and message system.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Accounts Payable or G/L Export. Export audited and approved bill records to an A/P or G/L system for final processing and payment, which eliminates double entry of billing data.	<input type="checkbox"/>	
Bill Accruals. Create estimated bills (accruals) based on historical bills in order to close out an accounting period. Then export accrued bills to the General Ledger and reverse the accrued transactions after the actual bill is received.	<input type="checkbox"/>	<input checked="" type="checkbox"/> 2 Reports
Bill Audits. Verify utility bill accuracy and spot problems using 49 audits.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Electronic Bills From Vendor via EDI. Receive electronic bills from utility vendors in EDI format.	<input type="checkbox"/>	<input type="checkbox"/>
Electronic Bills From Vendor via Flat File. Import electronic bills as a flat file.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Energy Contract Administration. Manage energy supply and performance contracts by vendor. Associate contracts with one or more accounts, and enter contract details.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Issue Tracker. Work order system used to track, report, email, and manage savings and problems.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Workflow Management. User configurable workflow settings for processing of utility bills.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Savings & Analysis

Benchmarking Charts. Rank and compare buildings and meters within peer groups. Instantly highlight outliers (abnormal meters, buildings, and bills) and prioritize energy conservation efforts.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Budgets & Forecasts. Create meter-by-meter and month-by-month budgets based on past bills.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Cost Avoidance (M&V). Calculates the savings attributable to energy management by comparing current bills with a normalized baseline year. Complies with the IPMVP, Section C “whole building method” of energy savings measurement & verification.	<input type="checkbox"/>	<input type="checkbox"/>
Energy Procurement. Loadshapes and special reports provide the detailed data needed to make informed energy procurement decisions.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Rate/Tariff Analysis. Compare current utility billed rates to alternative rate schedules.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Weather Data. Trend and analyze weather data and the impact on energy usage.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Reporting & Presentation

Automated Report Distribution. Schedule and email report batches to distribution lists.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Custom Spreadsheets for Data Export. Design custom spreadsheets for quick and easy export to Excel or other applications, for ad-hoc reporting.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
PowerViews™. Exclusive EnergyCAP feature that puts current data at your fingertips. Trend charts and graphs that can be automatically displayed and dynamically updated.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Reports, Charts, & Graphs. View and analyze utility data from EnergyCAP’s library of 250 informative and easy-to-understand reports.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
TreeView Navigation. User-friendly hierarchical structure and presentation of buildings, meters, accounts, and cost centers.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Sustainability & Compliance

EnergyCAP
Enterprise

EnergyCAP
Express

ENERGY STAR Benchmarking. Interface to EPA's Portfolio Manager to obtain ENERGY STAR energy efficiency rating for buildings.

Greenhouse Gas Emissions. Calculate and report the GHG emissions resulting from energy use.

Chargebacks & Tenant Rebilling

Bill Splits. Split bills by percentages for shared or unmetered facilities.

MUVER™ Cost Recovery for Rentals. Move-In Utility Vacant Expense Recovery for multi-family apartment communities enables recovery of vacant unit costs resulting from continuous service agreements.

Submeters & Chargebacks. Enter or import submeter readings to create chargeback "invoices" for customers, other departments, or tenants.

Meter Data Tracking

Interval (Time-Series) Data. Import and analyze meter interval data (usually 15, 30, or 60-minute intervals) for detailed energy consumption analysis.

Meter Data Import. Import meter data for detailed use analysis and bill verification.

Web Access & Permissions

Microsoft® SQL Server®. Utilize Microsoft SQL Server for data storage and processing. Host your own EnergyCAP database, or we'll host it for you in our commercial data center.

ECI Hosts

Unlimited Number of Users. EnergyCAP is licensed for an unlimited number of users, so no need to worry about seat licenses or unexpected charges.

User Permissions. Manage user rights on an individual basis or through the use of convenient, time-saving User Roles.

Web Access. Access EnergyCAP from anywhere via a standard Web browser.

Database Setup

Data Import Templates. Get started quickly and reduce manual keyboard data entry by importing your organizational and historical billing data into EnergyCAP.

Implementation Services. Work directly with your ECI project manager to get EnergyCAP up and running quickly and correctly. Services include project management, data conversion and import, training, etc.

Setup Wizards. Setup Wizards throughout EnergyCAP walk you through new account and meter setup, budget creation, rate schedule setup, and more.

Standard Feature

Optional Feature
