

uTrack: Mobile App for Managing and Tracking Tasks

“TenPearls’ mobile app, uTrack, stood out as clear leaders in terms of its usability and intelligent integration with smart devices.”

- Rabia Nizami, NOKIA, Near East

Managing Tasks Made Easy

uTrack is a award-winning mobile application providing a novel way to manage and track tasks. Create your own “virtual walls” to efficiently track personal and professionals tasks “to-do” through a fun and user-friendly mobile application interface. uTrack recently won the NOKIA Innovation contest beating a number of mobile apps.

“Would you be lost without your lists? I am a post-it queen myself, and this app. is going to make my life a lot easier.”

-Tyne Reynaldo, AppSafari

The concept is simple. The application features a virtual 'wall' where users can put up sticky notes with their to-do's. Multiple virtual walls may be set up for different activities. Once the user decides to start the task, they can simply drag the sticky note from the 'to-do' column to 'in progress'. The user may choose to move the task to the 'verify' column should they feel the need to revisit it after completion. Once the task is finally completed, the user may drag that task to the 'done' column.

At any point in time, the user could delete tasks or clean their wall completely. The application also allows to take snapshots at any given instance and send them via email.

To make management of tasks easier, uTrack allows users to group their virtual walls by projects. Users have the ability to set a 'due date' for each task, 'assign' it to others through email notification, and 'set calendar reminders' that could be synched with Outlook. Tasks may also be imported in between projects and walls.

Features: uTrack Pro

- ▣ Manage multiple Projects through a single application
- ▣ Create Up to 6 Projects
- ▣ Create multiple Walls to track various initiatives or sub-projects within a specific Project
- ▣ Create Up to 3 Walls per Project
- ▣ Create and Post Tasks on Walls (like adding sticky notes to your virtual wall)
- ▣ Add, Edit or Delete Tasks
- ▣ Create up to 12 Tasks for each Wall
- ▣ Assign different colors to your Tasks
- ▣ Import Tasks from other Walls
- ▣ Assign Tasks to others
- ▣ Set Due Date for Tasks with Reminder
- ▣ Add Tasks to Calendar; synch with Outlook
- ▣ Take a snapshot of your Wall and share via Email
- ▣ Clear Wall removing all the Tasks
- ▣ Push out Notifications for Tasks nearing Due Date
