

MOBILE X POS PLATFORM

Mobile X Platform - Mobile Sales / Inventory Control

Mobile X updates and maintains from the cloud the essential variables concerning point of sale and inventory management in real time.

The Mobile X web portal acts as a control panel for the mobile registers. This rapid sync capacity to multiple handhelds gives dynamic control over the configuration for pricing and inventory updates as you sell in real-time.

This solution gives you and your staff control over multiple areas of your business with the freedom and versatility of a mobile device.
