

IFE is about to get a lot more entertaining...and profitable.

Customized turn-key IFE solutions from digEcor.

10 Years of Continuous Testing and Research

digEcor's constant improvement creates extended reliability for you. As we discovered exactly what passengers and airlines needed, we developed an IFE player that:

- stores quickly
- charges independently
- is resilient to wear, tear, and dropping
- offers ancillary income
- and is affordable

The digEplayer L7 and L10 fulfill and surpass the needs of today's airlines.

**"Another chronicle of IFE success
... a new paradigm in the industry."**

Terry Wiseman AIRFAX

Store 96 digEplayer L7s in a standard galley cart. Removable batteries charge independently of the player so you can keep the players actively used and earning profit.

- The built-in credit card reader allows for rental programs, in-flight shopping, and pay-per-view.

- With a vertically integrated supply chain, we offer a more cost effective solution.

- We have the resources to help you meet your financial objectives. We can also organize a rental program to help offset costs. For example, customers currently see rental uptake reaching 100%!

- Our support team handles user inquiries while your airline benefits from the additional branding opportunity.

Revenue sponsored entertainment

Understanding your desire to create new revenue streams, we continue to develop ancillary revenue programs such as:

- premium advertisements
- in-flight shopping
- and pay-per-view content

Unique, streamlined approach to offering content

We save you money on each piece of content because we encode all our videos in-house with an MPAA audited and studio approved lab. By having more control of the process, we can better control the cost of production.

Broad range of financing options

Since the cost of procuring an IFE system can be daunting, we offer financing that provides low to no upfront cost:

- purchase
- lease
- or revenue share agreement

Secure rental revenue pre-flight

Using digEplayer.com, the first ever online IFE reservation portal, you can maximize your rental revenue potential as passengers reserve players in advance of their flight.
