

## We work closely with:

### Local Government

GGfL works with local and regional education bodies to help drive usage of online learning both within schools and at home. Volume discounts can be achieved based on school numbers and length of licence. In instances where region-wide licences are obtained, resources created using GGfL content can be shared across that region.

### Partners and Resellers

GGfL offers partnership opportunities to established companies in the education sector. These include technology service providers, hardware vendors, educational consultancies, groups, communities and societies, and educational content distributors.

### Ministries of Education

GGfL works with Ministries of Education and national education bodies to deliver complete e-learning solutions combining learning platform technology and world class educational resources.

### Content Providers

GGfL engages in global distribution partnerships with a growing base of content providers and publishers. In this way, GGfL helps connect learning communities worldwide to a network of trusted sources of educational resources.

## Global Services

GGfL provides a variety of additional services to help publishers, Ministries of Education and regional bodies to effectively develop and manage their digital transition. We offer the pathway to success in an increasingly complex digital publishing world with expertise in:

- ✓ Digital content preparation and management
- ✓ Digital content delivery
- ✓ Post-implementation training and support
- ✓ Digital re-purposing of content
- ✓ Bespoke learning platform integration
- ✓ Consultancy and best practise with digital products and services

“The resources enabled my teaching to become engaging and interesting to my children. As a result, all activities were able to be fully differentiated.”

S. Sharif,  
Primary Teacher,  
Leeds

“When developing our platform we surveyed schools and the overwhelming response came back that they wanted access to images, videos and learning games that they could use within lesson plans and that the children could safely research and use - GGfL fits that requirement perfectly and has already been very well received.”

Sean Gilligan,  
Managing Director,  
Webanywhere

## Pricing

The GGfL Library represents exceptional value for money and is available from as little as £260 for an annual licence (varies according to the type of educational institution). Volume and multi-year discounts are also available.

# All Your Digital Content Needs in One Place

Global Grid for Learning (GGfL) services provide a safe and reliable way for teachers and students at all stages in education to search, stream and download high quality and copyright-cleared digital learning resources from multiple, trusted content providers.

Available online and through commonly used learning platforms, portals, and other educational software, GGfL ensures teachers and students have seamless access to the digital content they need, when they need it for anywhere, anytime teaching and learning.

wholly owned subsidiary of

## The GGfL Library

Over one million multimedia resources. Over one million ways to inspire learning.

### Images

Thousands of high quality photos, illustrations and diagrams from the world's leading image libraries.

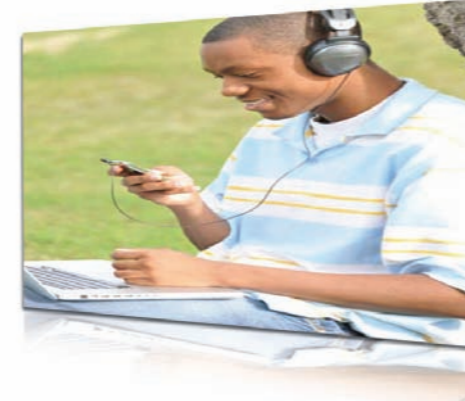

### Video

Collections of engaging and educationally contextualised video clips.

### Interactive Activities

Self-contained and interactive activities based on specific learner outcomes.

### Audio

Iconic speeches, music clips and narrations that enable a dynamic approach to teaching and learning.

### Documents

Educational documents including eBooks, textbook illustrations, printable practice sheets, exercises and activities, and dedicated resources for interactive whiteboard use.

## Delivery

### Online

The GGfL Library is available online through GGfL On Demand ([www.ggflondemand.com](http://www.ggflondemand.com)). GGfL On Demand provides an intuitive web interface that makes it quick and simple to discover relevant content using search filters such as keyword, age range, subject, resource type and format.

### Integrated Solutions

The GGfL Library is easily integrated into suitable third party applications and learning platforms using our web services. This means educational institutions can deliver seamless access to digital learning resources through technologies that are already being used in the classroom.

## Our Services

Access the content you want – any way you want

### GGfL Library Annual Licence

The GGfL Library Annual Licence offers educational institutions a digital library of over one million digital learning resources from an extensive and growing range of trusted content providers. With the GGfL Library teachers and students have the freedom to use, edit or repurpose resources in any way they like for lessons, homework and coursework.

- Unlimited downloads**
- Multi-year licences**
- Anywhere, anytime access online**

### Premium Content Upgrades

GGfL extends teaching and learning opportunities with extra licensing options for content. With the GGfL Library you can access a number of additional premium resources including:

#### Collections

Save time searching and downloading with topic-specific content collections.

#### Courses and Game Based Learning

Instant access to curriculum-based courses and software.

#### Pay Per Use

Download individual premium digital resources whenever it suits you.

#### Single Sign-On

Seamless access to a selection of chosen and trusted educational content provider websites.

### Free Learning Resources & Tools

GGfL is working with a number of open educational resource (OER) providers to enable access to a range of world-class digital learning resources that are free to use.

Added to this will be a range of freely available, easy-to-use authoring and collaboration tools.

Register for access at [www.ggflondemand.com](http://www.ggflondemand.com)

### Represents excellent value for money

GGfL saves educational institutions money in content procurement by providing a single source for a growing base of content providers.

### Eliminates financial risk of copyright infringement

All GGfL content is copyright-cleared so that teachers and students have the freedom to use, edit or repurpose resources any way they like for lesson plans, homework and coursework.

### Saves teachers valuable time

All GGfL content is classroom-safe and pedagogically sound, eliminating the often overwhelming, inappropriate and inaccurate nature of online search results.

### Maximises value of technology investments

GGfL integrations make it possible to deliver engaging lessons through chosen learning platforms, interactive whiteboards, and other software and technologies.
