Preparing students for success in a 21st century world

As the world gets smaller, the need for language proficiency keeps growing larger.

Technology, travel, and trade have removed traditional boundaries and created an interconnected planet. Success in this fast-paced world comes from effective communication through language. With PLATO Global Languages, learners become proficient and fluent in the language of their choice, preparing them for professional success and personal fulfillment.

We have partnered with Middlebury Interactive, a recognized leader in online language courseware, to provide a robust, comprehensive, and effective language curriculum. The engaging and highly interactive courses meet the standards established by the American Council on the Teaching of Foreign Languages (ACTFL).

Learning a new language—naturally

Global Languages courses feature natural language learning. Because students learn a new language in the same way that they learned their native language, proficiency comes faster and more effectively. Natural language learning creates a rewarding self-perpetuating cycle of success and motivation, resulting in a positive and productive experience and in real results.

In addition to learning being more effective because it is more natural, the Global Languages courses are highly interactive, graphically rich, and visually stimulating. Combined with age-appropriate games and culturally relevant activities, the courses are extremely motivating and engaging. And you don't need us to tell you how critical engagement is in learner achievement.

Of course, like all PLATO Learning instructional content, PLATO Global Languages offers robust and comprehensive assessment tools. These include testing in vocabulary, culture, listening, reading, grammar, and written and oral tests, as well as testing for academic credit. You will always know right where each learner is as they progress toward proficiency.
