

iLiveMath Speed, Entomology, Oceans, and Farm Fresh voted Best Math App for 2010 by IEAR.org

iLiveGrammar Botany nominated Best Language Arts App for 2010 by IEAR.org

# iHomeEducator Apps

*"Today the couple's 12 year old is the organization's Quality Assurance Engineer, and has the fine job of testing the product and developing new ideas [as Product Manager]. The younger siblings, ages 5 and 6, represent the end-users as testers of the products. It is safe to say these youngsters are learning more than math skills by being involved in the family's joint business and education venture."*

- CHARTER SCHOOLS EXAMINER

Universal iPad, iPhone, and iPod Touch Apps for Public, Charter, Private, & Home Elementary Level Learning

Cross-curricular learning  
 Beautifully interactive  
 Integrated multimedia  
 Email and blog test records

*"We are always trying to find ways to get our students to use higher thinking skills to solve everyday problems in order to give them ownership to real life applications... iLiveMath apps provide a huge amount of content enriched vocabulary which has extended a simple math lesson into several cross-curricular lessons."*

- PRINCIPAL, KITZMILLER, MARYLAND

In the iLiveMath series, every theme is carefully selected to provide a foundation of teaching critical mathematical concepts, problem-based learning, and logical thinking.

In the iLiveGrammar series we have combined grammar concepts with science using a similar foundation of interactive learning and multimedia as iLiveMath.

Public and Charter Schools continue to give us enhancement requests such as sharing the app within a classroom through a Promethean or SMART Board projection system.

We are very excited about the coming year as we begin to work with content providers in bringing you more educational apps to supplement your teaching curriculum.
