

## Your Complete Business VoIP Solution

### Take the Mystery Out of VoIP.

Thanks to advancements in IP technology, now your voice and data networks can be served across a single broadband IP connection. With one high-speed circuit to the Internet for both your voice and data networking, you can eliminate costly local and long distance services, retire your PBX, lower monthly maintenance fees and begin to realize the promise of IP communications with IP5280. Our feature-rich Hosted VoIP service has the versatility and flexibility to meet the needs of any business. See for yourself today.

### Now, your business can have the same phone features as Fortune 500 companies for a fraction of the cost.

**Highest Service Quality...**With business grade call quality and now with HD Voice.

**Cost Savings...**Save as much as 50% over traditional phone service providers.

**Unprecedented Flexibility...**We put rich call control features in your hands.

#### **Complete Mobility...**

*Find Me/Follow Me* feature ensures you'll never miss a call when you're on the go.

### Who is IP5280 Communications?

IP5280 is a Colorado-based service provider with a global reach, specializing in converged IP voice and data services. We are a profitable, privately held, employee-owned and operated communications provider. This means we are uniquely positioned to deliver value and high-quality services to our customers for years to come...we're here to stay.

IP5280 is built on innovation and is proud to have one of the most experienced engineering and leadership teams in the industry. In addition to business-grade call quality, we deliver a full line of IP services including Network Monitoring, E-mail and Web Hosting, Managed LAN Services, Conferencing and E-Fax services.
