

BCS Global named as one of the Best Managed Conferencing Service Providers for 2010 by Telepresence and Videoconferencing Insight for the fourth consecutive year

Toronto, Canada, February 17, 2011 - BCS Global Networks Limited (www.bcsglobal.com), a leading worldwide provider of managed video conferencing, telepresence and visual collaboration services today announced that it has been named as one of the Best Managed Conferencing Service Providers for 2010 by Telepresence and Videoconferencing Insight newsletter.

These awards are given to those providers who have the ability to deliver innovative, reliable, easy-to-use and cost-effective solutions backed by global service and 24/7 support. BCS Global is pleased to receive this recognition for the fourth consecutive year.

"We are honored to be recognized as one of the leading managed video services providers by Telepresence and Videoconferencing Insight" said Clive Sawkins, CEO, BCS Global. "At BCS Global, we are totally committed to customer service and to delivering video services that provide a superior user experience and are easy-to-use. This award reinforces our belief that the managed video services we provide are well received in the marketplace and are of value to our partners and customers."

Richard Line, Editor of Telepresence and Videoconferencing Insight Newsletter said about the awards, "The Editor takes the side of the user and looks for innovation, reliability, and ease of use. The service provider must offer a truly global service and 24/7 support. Above all, we look for satisfied customers and BCS Global has plenty of them judging by the exceptional growth in their business".

He added: "BCS Global made major improvements to its back office support and cloud-based service in 2010. It is a well-managed company that assists many companies to improve communication, reduce travel, improve the work-life balance of their staff and help the environment. The company is a truly outstanding service provider."
