SAP Business ByDesign™

CRM Starter Package

GET THE CRM CAPABILITIES YOU NEED TODAY TO DRIVE THE SUCCESS OF YOUR BUSINESS.

Success Isn't By Chance. It's By Design.

Have you become so busy that you spend your time being reactive instead of paying special attention to key prospects in your sales pipeline and staying in touch with your customer base?

In today's rapidly changing economy, you need to stay one step ahead of the competition to be able to maintain an active pipeline and close deals quickly and easily. If you don't - rest assured your competitors will. Putting Customer Relationship Management (CRM) best practices to work for you is critical to your success this year. A lead in your sales pipeline today may turn into your most loyal customer tomorrow.

SAP Business ByDesign: Flexible, Affordable Build-As-You-Grow Software

The answer to your CRM challenges and more is SAP Business ByDesign, complete business management software designed for growing small to midsized businesses and delivered on demand. With SAP Business ByDesign, you benefit from one single integrated solution that covers all key functional areas in your company, including marketing, sales, finance, accounting, human resources, production and supply chain management, and procurement. SAP Business ByDesign also provides a rich set of analytics and reports to let you monitor and process your data any way you want, providing deep insight into every aspect of your business.

However – maybe you feel that your business is not quite ready to take on a full business software implementation project for any of a number of reasons, including budget, legacy systems in place, or training of employees. That's ok. We want to help you focus on your most pressing business pain first – which for most businesses like yours is sales and marketing.

Introducing the SAP Business ByDesign CRM Starter Package

To make it easy for you to start small and phase your implementation of SAP Business ByDesign, SAP has introduced a set of starter packages, including the SAP Business ByDesign CRM Starter Package. The starter package for customer relationship management (CRM) supports best business practices for sales force automation, enabling your salespeople to generate leads, efficiently manage all stages of the sales process, and close deals promptly.

Get the CRM capabilities you need to drive the success of your business, while laying the foundation for a seamless expansion to a full SAP Business ByDesign implementation down the road.
