Senior Summer School Informational Meetings

Join us for an enjoyable afternoon or evening of information and education. After a short presentation about our all-inclusive summer getaways, **Dr. Bruno Leone** will entertain us with a dazzling lecture and performance of the "Life and Music of George Gershwin."

Bruno Leone has built an impressive reputation as a pianist, composer and raconteur who has performed on stage, radio and TV throughout the United States. His performances generate unbelievable audience appeal thanks to his extraordinary ability to combine his dual talents as a stage pianist and a published university historian. We are thrilled to bring him to our informational meetings this year.
