

# EyePlay for Children's Hospitals, Pediatrics Centers and Medical Facilities

## EyePlay Makes Hospitals a Less Scary Place for Children!

For Children, visiting a medical center or even the doctor's office is often accompanied by fears and feelings of discomfort. That's why EyeClick's EyePlay™ interactive gaming system is the perfect solution for brightening up areas and easing children's fears during their visit to medical facilities, whether they're awaiting medical treatment, or accompanying a family member.

EyePlay™ helps children cope by creating a fun, safe and amusing distraction, and a child-friendly environment. Children just love playing and interacting with the system, thereby leaving their visit with a positive, memorable experience.

EyePlay™ has successfully been installed in children's venues and play areas around the world.

- Safe as there are not parts to trip on
- Supports a germ free environment as there are no parts to touch
- Provides emotional ease and a positive distraction from the traditional medical center setting
- Inviting and amusing, irresistibly appealing
- Integrates physical activity
- Easy to install
- Most important – keeps children happy!

To find out more on how you can add enjoyment for kids visiting your medical facility, email us at [contact@eyeclick.com](mailto:contact@eyeclick.com) or call (404) 963-8771.
