Sfile Collaborative Global Workspaces

Overview

EXPERIENCE

Over 25 years of knowledge and experience building technology to provide worldwide enterprise content and knowledge management solutions for organizations.

VALUE

Pride is taken to provide a wide range of services that are flexible and customizable for a low and transparent, utility-based price. Sfile delivers on our promise that enterprise solutions do not have to be expensively disproportioned or proprietary to be secure, sophisticatedly simple, and successful.

CUSTOMER SERVICE

Sfile is dedicated to combine its full suite of customizable services with the best customer service and project management support in order to build mutual and long-term business relationships. **Sfile** is an on-demand solution that meets the challenges of litigation support, data governance, risk management, compliance and virtually any problem that requires multiple teams of multiple users to access, collaborate, discover, and unlock knowledge within stores of electronic data, documents, and files.

Furthermore, an on-demand world requires ondemand pricing that is simple to understand like purchasing electricity by the watt, cell phone usage by the minute, and gasoline by the gallon. Common to all Sfile solutions is our philosophy and efficient approach to pricing, "you pay exactly for what you need."

Sfile's feature-rich platform, used to solve a number of real world problems, is to say it plainly – simple. To any degree, a significant distinction is the ease of use and intuitiveness of the user's experience – a trademark of a sophisticated technology.

Knowledge and Experience

Sfile has been used to solve a range of problems across a number of industries. This shared knowledge is present throughout the platform where platform features and functions have been repurposed to bring a unique experience of choices to solve even the most challenging requirements. Industries served include, Legal Services, Oil and Gas, Manufacturing, Finance, Federal & State Governments, Higher Education, Healthcare, Insurance, and Retail.

Solutions Offered

ESI Processing

The Sfile HPC Processor for ESI can process at a minimum average of 50 GB per hour with peak performance of up to 180 GB per hour of raw data per collection.

ESI Analysis and Early Case Assessment

Sfile has achieved a true integrated E-Discovery platform that combines archiving, processing, ECA, review and production, with cutting-edge ESI Analysis and ECA tools to dramatically reduce the cost of the E-Discovery process.

Evidence Archiving

Reduce cost and risk of E-Discovery through document collection reuse, and by tracking document review and production history across a single or multiple matters, ensuring consistent treatment and production of evidence.

Sfile's E-Serve provides electronic document serving capabilities to large numbers of related parties with full auditing to verify delivery.

Enterprise Content Management

Sfile's ECM enables the user to capture, manage, review, preserve, and deliver multiple content management solutions with a single system.

Virtual Data Rooms

Access a secure virtual data room designed to streamline document distribution, review, revision, execution, and archiving.

Social Collaboration

Sfile provides on-demand collaborative communication functionality based on social media technology. Users can participate in an online, interactive discussion through ongoing entries of commentary, and descriptions of events relating to a matter.

Sfile Collaborative Global Workspaces – Overview

Sfile Collaborative Global Workspace with Integrated Native Document Review

SCALABILITY

On-demand hosted architecture supports large volumes of data and thousands of simultaneous users.

BROWSER INDEPENDENCE

Users can access the Sfile Collaborative Global Workspace via Internet Explorer, Firefox, Opera, Chrome and Safari without the need to download or install plug-ins.

SECURITY

Sfile believes that security is the foundation to every aspect of how data is managed. Based on best practices from the ground up and by the performance of due diligence, Sfile maintains and updates those practices as the threat landscape changes.

Integrated Native Document Review

- Tiff-on-the-fly features, with no plug-ins
- Full redaction capabilities
- Advanced filter features minimize document redundancy, duplicates, and irrelevancy

Innovative Technology

- Superior processing capabilities in the proprietary cloud software architecture
- Greater control and manageability of documents
- Zero-footprint, web-based solutions
- Flexible platforms allow easy integration of custom widgets, such as surveys to manage and analyze polls

Standard & Transparent Price

- No licensing fees
- No menu-based pricing Transparent Simple Pricing

Advanced Security

- Users connect to Sfile by using Hypertext Transfer Protocol Secure (HTTPS)
- HTTPS encrypted web pages
- 24/7 Performance and Threat Monitoring with multi level alert protocols

Support

- Available 24/7/365 via phone, email and online
- Free training and support
- Dedicated Case Managers

About Sfile

Sfile embraces the philosophy that, "Knowledge should be free to access, share, and act upon – from anywhere." No other platform provides free access to as many types of data and presents them in a webaccessible, zero-footprint, cloud computing system like Sfile.

Sfile Partner Program

Sfile provides B2B collaborative platforms and services with the option to private label with no start-up fees. Sfile empowers businesses that empower people.

Take Advantage

Contact us for more information on how Sfile can meet your technology needs and benefit your business.
