

Bodhi[®]

Basic Collections

B[®] FERUM COLLECTION

FERUM combines the clarity and protection of metal with the power of water. Once brightly painted ... now old and unusable ... local fishermen's boats are transformed into a truly one of a kind furniture collection. The colourful wood is supported with double bars of rich black iron, giving a clean strong character to each piece.

B[®] KASTING COLLECTION

Inspired by worksite scaffolding structures, the KASTING collection is sturdy and solid, yet surprisingly light and airy. Galvanized pipes for the main framework combine with laminated teak wood for a look that's bold, edgy, a bit daring. The wheels ensure easy portability, so your décor scheme can be changed anytime.

B[®] Tube line COLLECTION

Galvanized pipes, combined with 100% recycled teak wood, support and define an urban design sensibility in the Tube Line collection. The feeling is one of strength and stability, yet calming and serene at the same time, of bringing the forest into the city.

B[®] LIGNUM COLLECTION

LIGNUM's design takes its inspiration from the symbolic meaning of the wood element ... renewal, growth and creative energies. Locked together end pieces of well-worn Javanese benches, called dingklik, form the eye-catching patchwork effect on the furniture tops. Matte grey, brushed iron legs give structural support and combine beautifully with the warm wood tones.

B[®] FISSURE COLLECTION

The modern Fissure Collection combines smooth with rough-textured wood surfaces. Each item is characterized by a fissure – a split or gap – between two parts of the design, adding an element of surprise and intrigue.

LUCY COLLECTION

Shapely, curved, baroque style table and accessory legs are not the only distinguishing elements of the Lucy Collection. Different models combine rough with smooth surfaces, while the front panels on cabinets are created from smaller pieces of leftover wood in a collage effect. When you pair these antique-looking tables with the textured surfaces on the modern cabinets, you create quite a statement.

TRAPESIUM COLLECTION

The shapes of these modern designs are angled out on the bottom creating a spatial and playful effect. At the dining table, you get even more space for your chairs, while the cabinets allow you to display larger items on the bottom shelves.

LEKK COLLECTION

The Lekk Collection is deceiving. It seems massive. Yet, because the design incorporates many open spaces, in the end the look and feeling is light and easy to live with.

A Perfect Match for Your Eco-Conscious Customers ... furniture with a story to tell

If you're looking for innovative furniture designs from a variety of recycled materials, let us help you build your business with d-Bodhi's Basic Collections.

These proven sellers in nearly 30 countries around the world are designed for those who value the creative spirit ... and want to step lightly on the planet.

Expect the unexpected from d-Bodhi as we continue to ask, "How can we extend the life of materials that are still perfectly good, if only they could be reused in a new way?" It keeps us thinking up imaginative ways to surprise you with products that have a story to tell.

Speak to one of our sales representatives during the IFFS at Booth 5C-11 and 5C-12. We'll be happy to discuss your particular needs.

dB[®] SPIKE COLLECTION

Dramatic, Exciting, Vibrant...

The Spike Collection's smooth rounded corners of brushed-iron bands combine with solid reclaimed teak wood and floating tops for a dynamic furniture statement. The rich deep grey on burnished metal drawers and doors dramatically sets off the warm honey colored wood.

dB[®] KEY COLLECTION

Dynamic, Commanding, Solid

Inspired by trestle tables from medieval times, solid teak wood is laminated to an MDF inner core and supported by massive iron keyhole-shaped trestles. This bold piece of furniture adds a commanding presence to any décor.

dB[®] SEBB COLLECTION

Lively, Upbeat, Edgy

Perfect for a teenager's bedroom, the softly faded patina of colorful reclaimed teak wood creates a fun, upbeat effect in the Sebb Collection. Brushed-iron bars add an edgy design element and structural support.

dB[®] UBIN COLLECTION

Soothing, Restful, Relaxing

Flowing brushed-iron bands support softly colored reclaimed teak wood panels creating a restful, calm atmosphere in this bedroom furniture collection.

dB[®] BOW FRONT COLLECTION

Elegant with a vintage flair

Gently rounded fronts and legs on the Bow Front Collection add elegance to any room, while metal nail studs give a vintage appeal to the burnished-iron drawers and doors. Softly colored pieces of reclaimed teak wood form the sides and shelves. Brushed-iron provides the structure.

dB STREET ART COLLECTION

Raw, Inventive, Unconventional

Designed from weathered pieces of recycled teak wood, the faded paint and twisted iron legs bring a raw urban energy to the Street Art Collection. The tops of several tables cleverly turn into functional serving trays.

dB dBright COLLECTION

Bold, Artistic, Hot

Light up a room in a bold, artistic style with the d-Bright Collection of floor, table and wall lamps. Using d-Bodhi's signature small scraps of recycled teak wood to form the base of several models, the lampshades have a subtle industrial or graffiti pattern design.

dB dBlue COLLECTION

Sassy, Playful, Informal

What could be more comfortable than a favorite pair of well-worn jeans? Recycled denim jeans find a new lease on life in the d-Blue Collection of playful, casual, chairs, puffs and stools. Carefully placing functional pockets and the jean's distinctive seams as design elements make each piece one of a kind.

dB COUTURE COLLECTION

Dressing with Attitude

Step into the urban street scene in comfort and ease. The amazingly soft jeans and t-shirt delivers an edgy, casual chic style whether you live in a huge urban city or a small country town.

With 17 percent of the denim fabric made from reprocessed cotton waste materials, you're helping the planet as well.

d-Bodhi Street Art 2011 ... the spirit continues furniture with a story to tell

d-Bodhi's collections continue to recycle a variety of raw materials into imaginative creations fit for today's eco-conscious consumers.

Building on the strength of our award winning reclaimed teak wood furniture, the 2011 designs use even more pieces of colorful scrap wood from old houses faded to a rich patina ... and give old jeans a new lease on life with our d-Blue seating collection. Come see all the new collections at Booth 5C-11 and 5C-12.
