

HYBRID LITE CONSTRUCTION

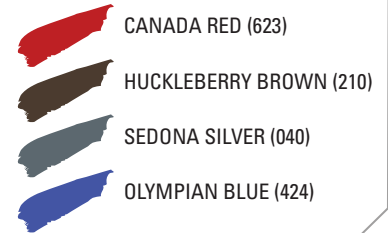

SPLIT COMPARTMENT PACKING

ERGONOMIC PULL HANDLE

COLORS AVAILABLE

- Yielding very lightweight high capacity cases, the Hybrid Lite Construction combines ABS hard shell protection where it's needed most with ballistic Terylene fabric for packing flexibility.
- Expandable split compartment system provides maximum packing organization. Center divider also folds up to allow one large main compartment.
- Main external front pocket has dual openings for convenient access.
- Top, bottom, side and front carry handles for carrying convenience.
- Ergonomically designed locking pull handle is made of high grade aluminum for reliability and ease of use.
- Add-a-bag strap on 22"/26"/30" cases lets you easily transport an additional bag.
- Quiet, smooth rolling oversized inline skate wheels come with durable steel ball bearings for effortless travel.
- Limited 10 year warranty
