The information herein was obtained from various sources; we do not guarantee its accuracy or completeness. This research report is prepared for general circulation and is circulated for general information only. It does not have regard to specific investment objectives, financial situations and the particular needs of any particular person who may receive this report. Investors should seek financial advice regarding the appropriateness of investing in any securities or investment and trading strategies discussed or recommended in this report and should understand that the statements regarding future prospects may not be realized. Investors should note that income from such securities, if any, may fluctuate and that each security's price or value may rise or fall. Accordingly, investors may receive back less than originally invested. Past performance is not necessarily a guide to future performance. Neither the information nor any opinion expressed constitutes an offer to buy or sell any securities or options or futures contracts. CBDM.T SARL accepts no responsibility or liability whatsoever for any expense, loss or damages arising out of or in any way connected with the use of all or any part of this report. CBDM.T SARL does not have long or short position in any securities or options of this issue(s).

Philippe Tramoy

Philippe Tramoy is a market and business intelligence expert. He has previously conducted Research and Business Development projects. He holds a Masters in Finance, a Masters in Intelligence Marketing, an MSc in Biochemistry and an MSc in Genetics & Immunology. In 2000, he joined Rhodia Chirex as Europe Business Development Manager for biotechnology and biopharmaceutical companies.

In 2004, he founded CBDMT – Market & Business Intelligence. CBDM.T® is a market and business intelligence company with offices in France, Switzerland and Israel. As an advisory services company, CBDM.T® boosts companies to develop revenue and growth by providing business and marketing services in the life science and biotech markets (market surveys, market scouting, business development and strategic supports).

Claude Bensoussan

Claude Bensoussan is a bioproduction expert. He has previously conducted R&D and industrial projects in the bioproduction field. He has a PhD degree in Molecular Pharmacology. In 1987, he joined Rhône-Poulenc Santé's Vitry Research Centre as a toxicology researcher. He subsequently specialized in biotechnology and was appointed (in 1996) Director of the Biotransformation Group at Rhône-Poulenc Rorer. In 2000, he joined Rhodia as Director of the Biocatalysis Department and Biotech Project Director at the company's Research Centre in Lyon.

In 2005, he created BioAdvice®, an operational consultancy firm in the field of bioprocess and bioproduct development. BioAdvice and CBDM.T have collaborated since early 2006 in the mapping of innovative technologies from the biotechnology areas and in advisory services.

Table of Contents

Executive Summary	13
Chapter I – General Information	15
Introduction.....	16
The European context	17
Objectives.....	18
Methodology	19
History of contract manufacturing organizations	19
Lonza.....	19
DSM Biologics	19
Angel biotechnology.....	20
Lactosan.....	20
Safisis	20
National Biomanufacturing Center	21
Market served and product types.....	22
The biopharmaceutical segment.....	22
Monoclonal antibodies.....	23
Vaccines.....	25
Recombinant proteins.....	25
The industrial biotechnology segment.....	26
Technical enzymes.....	27
Environment.....	29
Biofuels	30
The food segment.....	31
The feed segment.....	33
The cosmetics segment	34
The agricultural segment.....	36
Biomanufacturing technologies and processes.....	39
The different production systems	39
Microbial fermentation	39
Biocatalysis	40
Mammalian cell culture.....	42

Transgenic animals	43
Transgenic plants.....	44
The upstream process development (UPS)	47
Cell line development.....	48
Process development	48
Harvest and concentration.....	50
The downstream process development (DSP)	51
Purification	51
Fill & Finish	52
Outsourcing Biomanufacturing	53
Make versus buy decision	53
Key selection criteria	55
Chapter II –European Contract BioManufacturing Organizations	57
Statistical population.....	58
Situation	59
Number of companies.....	59
Location.....	60
Quality assurance and certifications	64
Expression platforms.....	66
Segmentation	67
Size and Capacity.....	71
Scale.....	71
Production capacity.....	72
Total European production capacity	72
Mammalian cell culture capacity	72
Microbial fermentation capacity.....	76
Additional services	78
Forecast	80
The rise of biopharmaceuticals and industrial biotechnology	80
Biopharmaceuticals lead the contract manufacturing market	80
Increased interest for bio-based processes and materials	81
Increasing competition and intellectual property concerns	83
From larger bioreactors to additional services	83

Emergence of alternative expression systems.....	85
Chapter III – The Contract Biomanufacturing Market.....	87
Global Contract Biomanufacturing Market.....	88
The Biopharmaceutical Market.....	91
Market situation and evolution.....	92
Monoclonal antibodies.....	94
Vaccines.....	97
Recombinant proteins	97
Contract BioManufacturing companies and offer.....	101
The Food Market	109
Market situation and evolution.....	110
Food additives	111
Food supplements.....	111
Probiotics.....	113
Processing aids	113
Contract biomanufacturing companies and offer.....	115
The Industrial Biotechnology Market.....	121
Market situation and evolution.....	122
Technical enzymes.....	122
Environmental applications.....	124
Bioremediation.....	124
Biopolymers.....	125
Contract biomanufacturing companies and offer.....	127
The Feed Market	131
Market situation and evolution.....	132
Feed additives	133
Feed enzymes.....	134
Contract biomanufacturing companies and offer.....	135
The Cosmetics Market.....	140
Market situation and evolution.....	141
Contract biomanufacturing companies and offer.....	143
The Bio-Agricultural Market.....	147
Market situation and evolution.....	148

Biopesticides.....	148
Biofertilizers.....	149
Contract biomanufacturing companies and offer.....	150
Chapter IV - Key Players	154
Lonza	155
Boehringer Ingelheim.....	159
DSM Biologics	162
Diosynth Biotechnology	165
Roche.....	168
Sandoz	171
BioVet	174
Danisco	176
Cambrex	180
SAFC Biosciences	183
Lallemand	186

List of Tables

Table 1 Examples of Biomanufacturing Applications	17
Table 2 Biopharmaceutical Products.....	22
Table 3 List of Therapeutic Monoclonal Antibodies Approved.....	23
Table 4 Some Commercial Enzymes and Source Microorganisms.....	27
Table 5 Some Detergent Enzymes and Their Action	28
Table 6 Application of Hydrolase Enzyme in Fabric Preparation	28
Table 7 Application of Oxidoreductase in Fabric Preparation	29
Table 8 The Different Types of Food Ingredients.....	31
Table 9 Feed Ingredients Manufacturing Deals with European CMOs	34
Table 10 Selected Ingredients Segments and Leading Products.....	35
Table 11 Biopesticide Products and Companies	37
Table 12 Microbial Expression Systems	40
Table 13 Methods Used to Develop Chiral Compounds	41
Table 14 Biocatalysis in Industry-Examples.....	42
Table 15 Therapeutic Proteins Produced in the Milk of Transgenic Animals that are Currently in Commercial Development.....	43
Table 16 Comparison of Expression Systems	45
Table 17 Cleanroom Standards	52
Table 18 Capital Investment Costs for Biopharmaceutical Facilities in Europe	53
Table 19 CMOs' Key Data	58
Table 20 Example of Companies Running Multiple Factories.....	60
Table 21 CMOs' Average Number of Employees	63
Table 22 Examples of Regulatory Agencies.....	64
Table 23 Comparison of Mammalian Cell Culture Capabilities Between France and the Netherlands (average data)	75
Table 24 Estimated Requirements for Top Selling Biopharmaceuticals	85
Table 25 New Biologic License Application (BLA) Approvals, 2009.....	94
Table 26 Therapeutic Antibodies Manufacturing Deals with European CMOs.....	96
Table 27 Vaccine Manufacturing Deals with European CMOs.....	97
Table 28 Recombinant Protein Manufacturing Deals with European CMOs	99
Table 29 CMOs' Key Data for the Biopharmaceutical Market	101
Table 30 Biopharmaceutical Key CMOs Using Microbial Fermentation	104
Table 31 Biopharmaceutical Key CMOs Using Mammalian Cell Culture.....	106
Table 32 CMOs' Key data for the Food Market	115
Table 33 Comparison of R&D Expenditures Between a Pharmaceutical and a Food Company, 2009	116
Table 34 Food Ingredients Key CMOs	116
Table 35 CMOs' Key Data for the Industrial Biotechnology Market	127
Table 36 Industrial Biotechnology Key CMOs	128
Table 37 CMOs' Key Data for the Feed Market.....	135
Table 38 Feed Additives Key CMOs	136
Table 39 CMOs Key Data for the Cosmetic Market.....	143

Table 40 Cosmetic Ingredients Key CMOs.....	144
Table 41 CMOs' Key Data for the Bio-Agricultural Market	150
Table 42 Agricultural Bioproducts Key CMOs	150
