

# Celebrating 40 Years of Success

**wnc**

We'd like to thank all of our partners for forty years of continued success. In 1971, we saw opportunities when most people had never heard of affordable housing. Today, with almost \$5 Billion in real estate assets spanning the country, we have established ourselves as an industry leader in tax credit investments. WNC looks forward to working with both old and new partners for many years to come.
