

OTHER PRODUCTS WE CARRY

BOAT LIFTS : When your day of fun and sun has ended, dock on the number-one dry-docking boat lift system. Knight EZ Dock offers a host of configurations for winch-on and drive-on boat lifts. With these boat dock systems, docking is as simple as loading onto a roller bed trailer. These unique docking options will keep your boat high and dry - free from impacts, floating debris, algae and barnacles.

EZ PORT® MAX is the first lift to be modular for multiple configurations to fit your needs. Adaptable to accommodate varying waterfronts, watercraft and anchoring needs, and expandable to allow for in-line tandem porting.

SEA-DOO Port : Engineered with Sea-Doo to ensure proper fit to your hull!

ACCESSORIES : You can add your own signature to your dock by adding an array of accessories from EZ Dock. To add your personal touch and accommodate your personal needs, choose from a wide variety of storage boxes, cleats, benches and ladders.

KNIGHT EZ DOCK GANGWAYS

Imagine strolling down to your dock walking on your beautiful, secure aluminum gangway without worry about slipping, and not having to watch your every step along the way! That is what the owners of Knight EZ Dock gangways do every time they walk out to their dock!

Constructed of 6061 aluminum trusses and frames, with a smooth yet tough walking surface made of ThruFlo decking, a smooth secure handrail placed at a convenient height with mid rails to protect children from falling through, Knight EZ Dock's aluminum gangways are an excellent aesthetic feature to add to your waterfront. With a Knight EZ Dock gangway system, you'll find yourself and your family spending more time on the dock because access is secure, smooth and safe!

Knight EZ Dock has created two distinct product lines for gangways:

- 1 Residential Gangway product line to suit most waterfront homeowner needs.
- 2 Commercial Gangways most suitable for public needs complete with engineering wet stamp.

Both product lines are compatible with the EZ Dock system and are compatible with other types of dock systems. Fabricated by certified welders at our climate controlled welding shop and storage facility yard in Deer Park, Washington, gangways can be specially fabricated to customize to your individual needs, including options for wheelchair and limited access needs.

Knight EZ Dock also manufactures a line of tough galvanized steel hinges and roller systems for adapting the gangways to suit virtually any application!

Call and talk to one of our experienced sales staff, and start enjoying your dock and waterfront right away!
