### worldwide provider network access

Through our network of highly qualified global providers, we assist with standard medical appointments, as well as emergency medical evacuation. These services include physician, hospital, and travel arrangements. Our staff of specialists understand the importance of medical necessity and rendering appropriate care for all of travelers. Our relationships with our providers and hospitals around the world ensure care coordination goes smoothly and without hassle. Seven Corners is a leader in accessing, coordinating and managing quality medical services around the globe.

# peace of mind & unparalleled service

**When you have employees and their families traveling or living internationally, there are countless complications that can arise during their trip. We offer personalized care for your most valuable asset.**

From finding lost luggage to medical coordination during a serious illness or injury, assistance in these situations is necessary and invaluable.

We service businesses large and small from government agencies such as Peace Corps, AmeriCorps VISTA, United States Department of State to large global corporate organizations such as Humana and Mayfair Worldwide.

We coordinate high standards of medical care, risk management, and travel management services in all areas of the world with a thorough understanding of cultural and language challenges. While the solution we deliver varies with each situation, Seven Corners' service is always the same – individualized and immediate. As the world changes, we continue to develop new ways to make our travelers' world safer, more secure, and more convenient.

Since 1993, Seven Corners has been providing assist services, insurance programs, and self-funded and government-funded healthcare management solutions worldwide. Our service goes beyond borders and beyond expectations. Our hands-on approach includes ongoing assistance to clients and members to ensure results. There is no end point to our responsiveness, caring and commitment. We do what we promise.

## case study

### car accident in ethiopia

**Accidents will happen...** In a serious car accident, located far away in an underdeveloped country, *our member severely fractured her back and ankle.* The medical establishment in this country is ill-prepared to handle the case. Now what? Because she was a client of Seven Corners, we:

- » Arranged for an air ambulance to immediately evacuate her to Tel Aviv;
- » Arranged for orthopedic and spinal specialists to treat our member;
- » Flew our client's mother into Tel Aviv to be with her daughter;
- » Repatriated our client to America, once her physicians declared her "Fit-to-Fly";
- » Arranged for all medical and transportation expenses to be billed directly to Seven Corners

***In times like these, you need expert assistance like Seven Corners Assist. [Read More »](#)***
