## **SilverFast supports Mac OS X 10.7 Lion**

**Kiel, March 11th, 2011 - LaserSoft Imaging announces support for Apple's new operating system. The world's most popular scanner software SilverFast will be fully available for Mac OS X 10.7.**

With version 10.7 (Lion) Apple is going to release an updated version of its operating system Mac OS X in summer of 2011. As usual, SilverFast will be compatible with all current Windows and Mac OS X operating systems. As a new feature, SilverFast will offer native support for the Intel processors used by Apple and thus ensures exceptionally fast and efficient program operations also in the future - both on 32bit as well as on 64bit computers.
