About The Child Abuse Services Team

CAST began in 1989 as a multi-disciplinary team program for conducting child sexual abuse investigations at a single site. At that time children who were alleged to have been sexually abused were subjected to multiple interviews by numerous professionals at various different sites. The child-focused, child-friendly environment at CAST serves to further reduce the trauma for abused children. Community donations of toys, games, stuffed animals, snacks, lunches, and crafts are provided for the comfort of the children. Each year over 1000 children in Orange County are seen. CAST is a member of the National Children’s Alliance and is a nationally recognized leader and role model for its child-friendly approach to conducting child abuse investigations.
