FOR IMMEDIATE RELEASE

DUNMORE Joins The North American Security Products Organization (NASPO)

DUNMORE Corporation has become a member of the North American Security Products Organization (NASPO). NASPO certifies providers of security products like documents, labels, and packaging. DUNMORE engineers and manufactures [tamper evident security films](#).

Bristol, PA, March 15, 2011 (PRWeb) – DUNMORE Corporation announces that it has become a member of the North American Security Products Organization (NASPO). NASPO is a non-profit member-supported organization that focuses on all aspects of security standards from definition to management and training of government organizations. NASPO certifies that providers of security documents, labels, cards, packaging, materials and technology, operate under an agreed-upon set of operational standards and security protocols. DUNMORE engineers and manufactures [tamper evident security films](#) to support product security and protect brand identity.

[Tamper evident films](#) made by DUNMORE allow for the immediate identification of tampering when an attempt is made to remove a label from a substrate. These security films are ideal for use in pharmaceutical, law enforcement, document security and electronic labeling applications. DUNMORE security films utilize DUN-GUARD™, a selective-release film that separates or destructs to leave evidence of tampering, typically displaying the word "void" when tampered with. However, custom designs, such as a corporate logo or geometric patterns, can also be applied to the material.

DUN-GUARD™
selective-release film

“DUNMORE is proud to join and work with NASPO on product security and protecting brand integrity,” said DUNMORE Marketing Manager Steve Young. “DUNMORE has been a leading provider of security films and tapes along with tamper evident labels for over twenty-five years, so this is a natural collaboration.”

About DUNMORE

DUNMORE Corporation is one of the world's top [engineered and laminated film companies](#). DUNMORE offers film conversion services such as coating, metallizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the photovoltaic, graphic arts, packaging, aerospace, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com/>.

About NASPO

NASPO is an ANSI-accredited standards development organization based in Washington, DC. Its members include commercial, industrial, government and private organizations. NASPO maintains the ANSI/NASPO Security Assurance standard (ANSI/NASPO-SA-2008) and certifies organizations to one of three levels of security assurance. On behalf of ANSI, NASPO acts as secretariat of the International Organization for Standardization Technical Committee on Fraud Countermeasures and Controls (ISO/TC 247). NASPO also administers the ANSI-accredited United States Technical Advisory Group to ISO/TC 247 and ISO/PC 246, Anti-counterfeiting tools. For more information on NASPO, please visit their website, <http://www.naspo.info>.
