"A New Way Of Sending Flowers"

EZBloomers.com provides you a new, better way to send flowers nationally. Orders go directly to a florist, not through a middleman like with other big national floral retailers. All of EZBloomers floral products are designed, arranged and hand-delivered by local professional florists.

We are committed to providing the customer with the best value. The price you see is the price you pay, no hidden fees. And the full amount you pay goes toward the order.

At EZBloomers.com, there is no service fee, so you immediately save up to \$15 on each order in comparison to other sites. See the benefits...

Our service does not interfere with the transaction or the value of the order, which is why we view ourselves as a catalyst in support of the industry, not as middlemen who affect the price and the final product. The florist is charged \$5.50 cost per order received via EZBloomers.com.
