

## SAGEMCOM LAUNCHES TWO NEW RICOH CONNECTORS FOR MFP FAX SERVER INTEGRATION

March 2011

***Sagemcom is launching two new Ricoh Connectors so organizations may connect their Ricoh Multifunction Printers (MFPs) to the Sagemcom XMediusFAX™ Fax over IP (FoIP) server technology or OpenLine™ PR Server fax & document management solution (Americas edition), allowing best-in-class fax-oriented functions directly from the Ricoh MFP user interface.***

[Sagemcom](#), the global leader in advanced IP fax server solutions since 2002, is launching two new Ricoh connectors to simplify and enhance fax and document management processes. The company will be exhibiting at the upcoming ITEX 2011 show (booth 120), which will be held March 22-23 at the Walter E. Washington Convention Center in DC.

The [Ricoh connectors](#) help organizations: boost productivity; improve security & compliance through direct delivery to authenticated recipient email inboxes; and lower Total Cost of Ownership (TCO) within an IP-based infrastructure.

The Ricoh connectors interoperate directly and seamlessly with Sagemcom's XMediusFAX FoIP software or OpenLine PR Server appliances via the following Ricoh platforms run by a single, familiar MFP user touchscreen panel:

- Globalscan NX (server-based) version 1.3.5 or above
- Embedded Software Architecture (ESA) technologies 4.1 or above with a resolution of WVGA, HVGA or XVGA.

COMMUNIQUÉ DE PRESSE  
PRESS RELEASE

MFD panel provides access to feature rich fax server solution features within XMediusFAX or OpenLine

## Quote:

### Jean Champagne, General Manager, Sagemcom Canada Inc.

“Organizations in virtually every industry are increasingly deploying MFPs to consolidate the diverse peripherals deployed in traditional printing, copying, scanning, and faxing. Our new Sagemcom-developed connectors embellish Ricoh MFPs with feature-rich IP fax and document management functionalities common to both XMediusFAX and OpenLine, saving organizations thousands of dollars every year.”

## ABOUT SAGEMCOM

A French, international scale, high-tech company, Sagemcom is working to establish itself as a leader in high added value communicating terminals. It specialises in broadband communications, telecoms and energy, and the document management sectors: consumer and professional printing terminals, digital TV set-top boxes, broadband and residential terminals, communicating management solutions, energy and systems management, telecom partnerships and convergence. With a turnover of more than 1.4 billion euros, Sagemcom employs 6,000 people on five continents. It is headquartered in Rueil-Malmaison (France). Sagemcom's sustainable development policy commitment starts right from the product design stage. It applies to the whole of the industrial process, from eco-design in accordance with ISO standards, reducing the energy consumption of its products, and all in the context of an ethical code of practice applicable on all its suppliers. Sagemcom was the winner of the 2009, 2010 and 2011 Telecommunication Product category stomer Service Prize. For more information: [www.sagemcom.com](http://www.sagemcom.com)

Sagemcom is the global leader in advanced fax server solutions for IP networks. Its field-proven XMediusFAX™ leverages IP telephony and Unified Communications

(UC) systems to enhance productivity, collaboration, and ROI by integrating fax on the desktop. Deployed worldwide in enterprises and service provider sites since 2002, XMediusFAX is the most mature T.38 Fax over IP (FoIP) software on the market. It delivers scalable, secure and survivable FoIP solutions, empowering businesses to fulfill the compelling promise of UC.
