

CREATING A
WORLD OF SMILES

Lab Starter Packs

- Variety of sizes without having to order large quantities
- Available in Beakers, Cylinders and Erlenmeyer Flasks
- **New Lab Startup Grant Awards – New in 2011**

Vials for Sample Analysis, Storage and Retrieval

- Only worldwide manufacturer to control quality from the 'finest sands to finished products'
- Manufactured from Clear and Amber Borosilicate Glass
- Value-Added Services Available
- **Over 100 new SKU's added in 2011**

Midi-Vap 4000 Distillation System

Save Money, Time and Space!

- New Digital Controller with Pre-Programmed Temperature Settings and Automatic Shut-off – Exclusive Feature
- **Three-Year extended warranty for units purchased in 2011 – Market Exclusive**

NMR Tubes

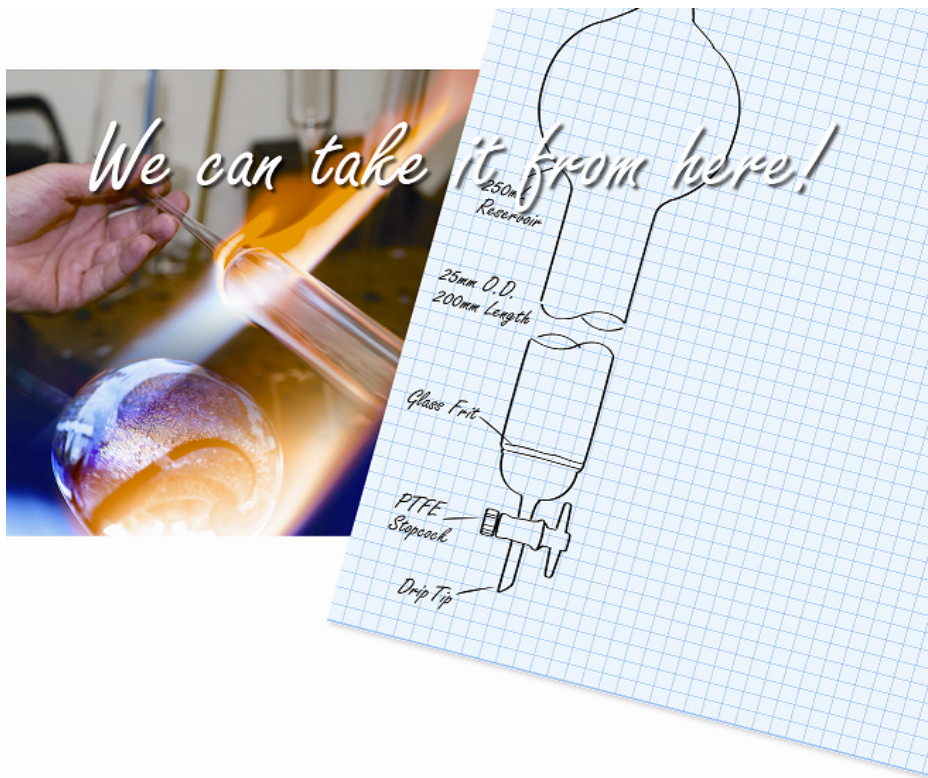

- Manufactured from KIMAX® ASTM Type I Glass
- Tubes for every laboratory budget and application
- Constant monitoring of wall thickness, concentricity and camber
- **Thrift, disposable and high-grade tubes available**

KimCote™ Plastic-Coated Glassware

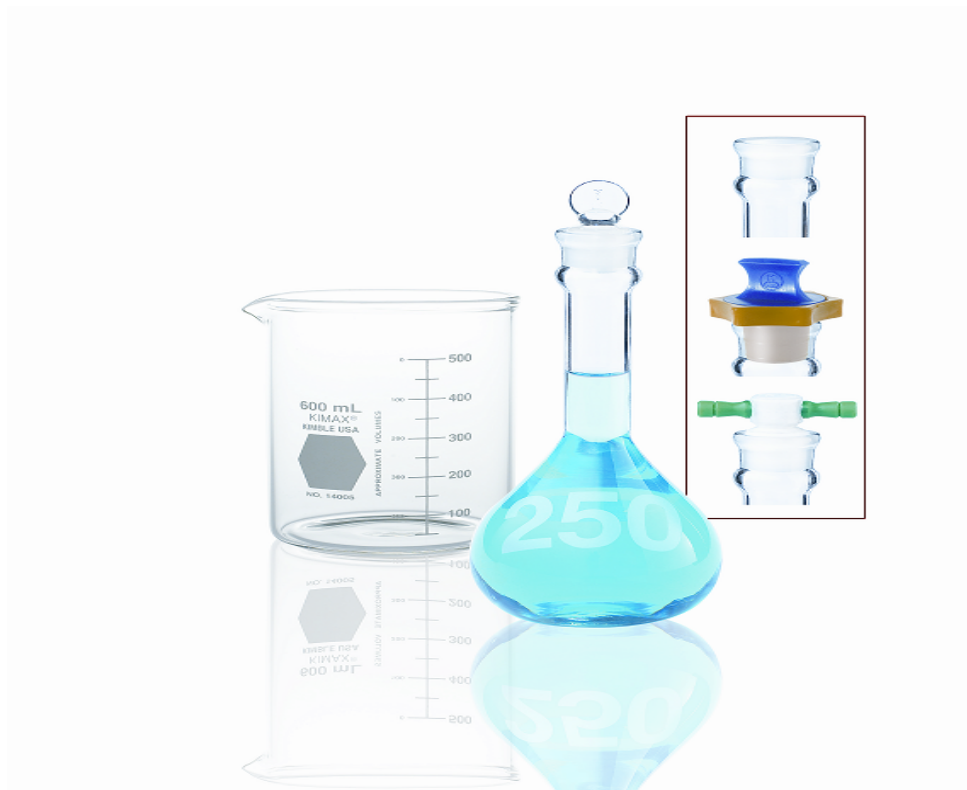

- Helps contain spills in the event of glassware breakage
- Unique ultra-clear coating
- Non-slip surface – wet or dry
- Autoclavable and chemical resistant
- **Over 75 standard products available with exclusive KimCote coating**

Custom Glass Shop

- Kimble Chase's specialty glassware fabrication and machine shop
- Ability to customize almost any piece of glassware
- Quantity as low as 1 piece
- **Initial product sketch through finished product**

Heavy Duty Glassware

- Twice the glass weight as standard products
- Outstanding mechanical durability
- Uniform wall thickness
- **Available in Beakers and Volumetric Flasks**

GL-45 Media Bottles

- Wide-opening general purpose bottle
- Autoclavable
- Available with or without caps
- Available in clear glass or RAY-SORB®
- **Volume sizes range from 100mL to 10L**

Chromatography

- Comprehensive product portfolio for TLC and low-pressure chromatography
- **Unique Ultraware® HPLC reservoirs and Cap Systems**

Tissue Grinders

- Glass, PTFE and plastic tissue grinders available
- Sold as sets or component parts
- Tightly held tolerances
- **Sizes range from 200 μ L to 100mL**

Chemistry Kits

- Comprehensive product portfolio
- Macro and micro kits available
- Sold as complete kits or individual component parts
- **Market exclusive – Williamson kits**

Centrifuge Tubes

- Most diverse product offering available in the market
- Disposable, reusable and graduated tubes
- Capability of customization
- **Market exclusive – High strength centrifuge tubes**
