## **SilverFast supports reflecta ProScan 7200 scanner on Mac**

**Kiel, March 22nd, 2011 - LaserSoft Imaging announces support for reflecta's current top film and slide scanner model ProScan 7200 on Apple Mac. The world's most widely used third-party scanner software SilverFast will open new dimensions for ProScan users.**

reflecta as a traditional German manufacturer of scanners and photographic equipment has now revised its top device to also give Mac users access to this high-quality scanner. The ProScan 7200 slide and film scanner is now fully compatible with Mac OS X. SilverFast scanner software was adjusted instantly and does now offer the same superior quality as it does on Windows systems, including full support of patented SilverFast Multi-Exposure® and Auto IT8 Calibration, dust and scratch removal iSRD® and 64bit HDRi RAW data format. reflecta specifies a true optical resolution of 3600 dpi and a great dynamic range of 3.8 Dmax for the ProScan 7200 that also features material and environmentally friendly LED light.
