**NVI, LLC Selects Saasmaint CMMS / EAM via Salesforce.com AppExchange 2, the World's Most-Popular Marketplace for Business Apps**

*Saasmaint CMMS / EAM enables NVI, LLC to track assets and calibration schedules.*

Atlanta, GA – [Insert Month, Day, 2011] – Saasmaint.com today announced Nondestructive & Visual Inspection, LLC (NVI, LLC) has selected and deployed Saasmaint Essentials CMMS / EAM via AppExchange 2. Saasmaint Essentials CMMS / EAM enables NVI, LLC to manage maintenance and calibration schedules for an extensive array of field instrumentation. By ensuring the reliability of its field instrumentation, NVI, LLC is able deliver upon its customer commitment of developing practical and cost effective solutions for nondestructive testing and materials evaluation. Built using Force.com, the enterprise cloud computing platform, Saasmaint CMMS / EAM is immediately available for test drive and deployment on AppExchange 2 at <http://www.salesforce.com/appexchange/> .

“Service companies are increasingly looking for ways to improve the availability and utilization of their physical assets,” said Mike Edwards, president of Saasmaint.com. “Saasmaint Essentials CMMS / EAM on the AppExchange enables Saasmaint.com to deliver cost effective and functionally robust CMMS / EAM solutions to leading companies like NVI.”

NVI needed a solution to track the assignment of instrumentation and test equipment to field technicians. Further, instrument calibration procedures needed to be scheduled and results recorded. With limited spares, maximizing field technician utilization was a challenge. Saasmaint CMMS provided just the solution NVI was looking for; easy to use, cost effective.

“The ease of use and cloud computing allowed us to deploy Saasmaint CMMS very rapidly,” said Joshua Luft, chief administrative officer of NVI. “Leveraging Saasmaint Essentials CMMS / EAM on the AppExchange gave us enterprise wide visibility to all of our field instrumentation. We can more effectively plan and schedule instrument calibrations maximizing field technician utilization. Business value and payback were realized immediately”.

**About the Force.com Platform and AppExchange**

Force.com is the only proven enterprise platform for building and running business applications in the cloud. The Force.com platform powers the Salesforce CRM <<http://www.salesforce.com/>> (<http://www.salesforce.com/>) applications, more than 1,000 ISV partner applications like those from CA Technologies, FinancialForce.com and Fujitsu, and 200,000 custom applications used by salesforce.com's 92,300 customers such as Japan Post, Kaiser Permanente, KONE and Sprint Nextel. Force.com also enables developers to make any enterprise app social by leveraging the social collaboration components including profiles, status updates, and real-time feeds available with Chatter.

Applications built on the Force.com platform can be easily distributed to the entire cloud computing community through the salesforce.com AppExchange 2 marketplace <http://www.salesforce.com/appexchange/>, now featuring the ChatterExchange.
