

CyBlock Proxy

Effective Internet Filtering for Your Organization

CyBlock Proxy is a standalone Internet filtering proxy server that combines precision filtering with the industry's best user-activity reporting in one high-performance, low-cost solution. Ideal for small to mid-size business networks, CyBlock Proxy doesn't require a proxy, firewall or caching appliance. There's nothing to install but software — making effective Web-use management easier than ever before.

Key Features

- Blocks spyware, pornography, gambling or any site you choose
- Monitors by individual users, specific work groups, or entire organization
- Covers over 500 million Web pages with 81 blocking and reporting categories
- Customizable category ratings based on your organization's Web-use policy
- Automatically detects and identifies Web abuse
- Tracks bandwidth usage by Web content category

Filtering

- Scheduled filtering by categories
- Additional filtering by URL extensions
- Lets you create customized white (allow-only) lists
- Allows for multiple block policies
- Customizable Web site blocking message

Reporting

- Interactive reports offer quick drill-down capabilities
- Reports are configurable to show only the data you actually need
- Report Scheduler runs and distributes reports automatically
- Distinguishes real user activity from erroneous hits
- Web-use reports are detailed, accurate and actionable

Administrative Features

- Real Time Monitor gives a live view of Web activity
- Browser interface allows for remote administration
- Logfile Manager updates and displays logfile status
- Data Manager compresses logfile data for faster reporting
- Data Manager lets you export Web-use data to other applications

Visits By Classification

Classification Name	Download Time	Visits	%	0	26,469	52,939

- Supports import of Groups and IDs from Active Directory

Compatibility

Operating Systems: Windows 2003/XP/2000/NT

Browsers: Microsoft Internet Explorer 6.0 or higher, Netscape 7.0 or higher, and Mozilla Firefox

Pricing

Wavecrest's CyBlock solutions offer the industry's best value for Internet filtering and monitoring. CyBlock Proxy is a licensed, subscription-based software product. Pricing is tiered, based on the number of people ("non-concurrent users") to be monitored. In general, the price-per-user decreases as the number of users goes up.

Every CyBlock Proxy purchase includes:

- Free technical support
- Daily URL list updates
- Free product upgrades

Discount pricing is available for government agencies, educational institutions, non-profit organizations, and resellers. For more information, contact sales at 321-953-5351, ext. 3.

Wavecrest Computing

Wavecrest Computing has provided business and government clients with reliable, accurate Web-use management software since 1996. IT specialists, HR professionals and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage - reducing liability risks, improving productivity, saving bandwidth and controlling costs.

Wavecrest has over 3,500 customers worldwide, including the US Department of Justice, Procter & Gamble, General Electric, Hewlett Packard, Bayer, British Telecom, Edward Jones, Blue Cross/Blue Shield, the US Army and a growing list of global enterprises and government agencies. Wavecrest Computing is a GSA Schedule Contractor. For more information on our company, products and partners, visit www.wavecrest.net.
