DERMATOLOGIST DEVELOPED

Exuviance®

Discover the dermatology developed Exuviance skin care collection, clinically proven to dramatically transform all skin types. Recommended and highly regarded by skin care experts around the world.

Meet the visionaries~

Dr. Eugene J. Van Scott, MD, dermatologist, Dr. Ruey J. Yu, OMD, PhD, dermatopharmacologist

Drs. Eugene Van Scott and Ruey Yu are co-inventors, hold numerous U.S. and foreign patents and are authors of many medical journal articles. Among the founding fathers of modern dermatology, they have been selected to author several textbook chapters, including "Alpha Hydroxy Acids, Polyhydroxy Acids, Aldobionic Acids and Their Topical Applications" in the definitive Textbook of Cosmetic Dermatology.

Dr. Eugene J. Van Scott

- ~ Named Master of Dermatology by the American Academy of Dermatology
- ~ Received prestigious Albert Lasker Award
- ~ Former Professor of Dermatology, Skin & Cancer Hospital, Temple University
- ~ Established the Dermatology Branch of National Institutes of Health

Dr. Ruey J. Yu

- ~ Awarded the First Gold Medal by the International Academy of Cosmetic Dermatology
- ~ Former Associate Professor, Skin & Cancer Hospital, Department of Dermatology, Temple University
- ~ Post-doctoral fellowship Division of Biosciences, National Research Council of Canada
- ~ Trained in oriental medicine (O.M.D.)

Revolutionizing the treatment of aging skin.

The creators of Exuviance, Drs. Van Scott and Yu, are internationally recognized for making the ground-breaking discovery that Alpha Hydroxy Acids (AHAs) are not only beneficial in the treatment of dermatological conditions, but are also effective in stimulating prematurely aged or damaged skin to actually rejuvenate itself, thereby revolutionizing the treatment of aging skin. Their passion and vision led the doctors to continue their advanced scientific innovation through the discovery of a new generation of Polyhydroxy Acids (PHAs) and Bionics, naturally occurring compounds that deliver deep antiaging benefits without the irritation and redness often associated with antiaging ingredients.

Continuous advancements in the field with scientific innovations have resulted in significant patents and published articles in peer-reviewed medical journals.

Discover Exuviance and begin the transformation.

The Exuviance line contains the best, clinically proven, state of the art technologies available today, all widely accepted by dermatologists the world over and supported by independent, peer-reviewed scientific articles in every major journal of medical and cosmetic dermatology. Exuviance skincare is truly the science of skin transformation.

Begin your personal regimen with the ideal selection of skin care specifically designed for your skin type. Individual product formulations and concentrations of ingredients are meticulously designed to maximize benefits and address every skincare need and skin type. Intensive targeted treatments address specific antiaging concerns to complement or boost results from your daily skincare regimen. The results are undeniable. Experience for yourself the power of clinically-proven Exuviance.

An extraordinary knowledge of science. A deep appreciation for beauty. Exuviance is the skincare authority.

THE ABCs OF EXUVIANCE SKINCARE

Alpha Hydroxy Acids **A**

Unlike chemical and mechanical exfoliants (think scrubbing beads) that work by continuously removing the top layers of the skin, AHAs (Alpha Hydroxy Acids) work on all layers of the skin. Within the epidermis, AHAs stimulate cell turnover for **reduced pore size and brighter, more luminous skin**, and they decrease melanin clumping and appearance of hyperpigmentation spots, so skin has a **more even, youthful tone and improved clarity**. Within the dermis (the deeper layers of the skin where wrinkling and sagging occur), **AHAs help reverse sun damage and reduce the appearance of fine lines and wrinkles**.

Glycolic Acid is an **AHA**, found naturally in sugar cane. Its antiaging benefits were originally discovered, patented and documented in many scientific journals, by Drs. Van Scott and Yu, the founders of our company, and the creators of the **first "lunchtime" Glycolic Acid peel**. Because of its small molecular size, Glycolic Acid offers fast absorption in skin. To optimize performance, however, it must be formulated at a low pH. Exuviance products which are formulated in an **amphoteric complex help to control the release of AHA and reduce the potential for irritation without loss of efficacy**. Glycolic Acid exfoliates and normalizes cell turnover to clarify pores, refine skin texture and break up dark pigmentation spots for more even tone. At deeper levels, it **increases collagen** and fills skin's support structure so skin looks **fuller, firmer and more youthful**.

Found naturally in almonds, **Mandelic Acid** is an **AHA** that is **ideal for oily, acne-prone skin**. Its unique lipophilic properties help reduce oiliness and optimize absorption by oily skin.

Mandelic Acid also has natural antibacterial properties making it ideally suited for acne-prone skin, but without the stinging and drying that sometimes accompany acne medications.

Polyhydroxy Acids **P**

PHAs (Polyhydroxy Acids) offer powerful antiaging benefits without irritation, and actually **strengthen skin's protective barrier**, reducing skin redness and making skin less vulnerable to irritants over time. The larger molecule binds water so it acts as a humectant to keep the skin moist, and penetrates gently to reduce irritation potential.

Gluconolactone, a **PHA** derived from corn sugar, is clinically proven to **provide powerful antiaging benefits without irritation, even in sensitive and rosacea-prone skin, and around the delicate eye area**. PHAs are ideal for anyone who seeks proven antiaging performance, including significant improvement in overall photoaging, texture and lines and wrinkles, without the dryness, redness and flaking that can occur with other antiaging ingredients like retinoids. Gluconolactone is also a highly stable antioxidant that has been proven to inhibit elastase, helping to **preserve skin's youthful elasticity**.

Bionics **B**

Unlike some antiaging ingredients that can irritate skin, Bionics harness the power of naturally occurring compounds to deliver clinically proven benefits such as smoother texture and tone, without redness, flaking or stinging.

Lactobionic Acid, a patented PHA Bionic derived from milk sugar, is a **very potent antioxidant** originally used to prevent oxidation and preserve organs for transplant. Because it combines the antiaging efficacy of AHA/PHAs **with inherent gentleness and ability to strengthen and moisturize skin**, physicians recommend Lactobionic Acid to maximize and extend your antiaging benefits following procedures such as peels, lasers and microdermabrasion

Bionics such as Lactobionic Acid and **Malto-bionic Acid**, derived from malt sugar, act as iron chelators, **providing protection from environmental and free radical damage**, and inhibiting metalloproteinase (MMP) which degrades collagen and GAGs, the skin's structural support. As a result, Bionics promote **youthful skin volume, smoothing wrinkles from the inside**.

Vitamins **VIT e**

Vitamins A, C and E act as antioxidants, protecting against free radical damage. **Vitamin K helps strengthen leaky capillaries, reducing the appearance of dark undereye circles**.

Peptides **Pd**

Peptides play a key role in the production of collagen and its surrounding support matrix. Replacing lost collagen can help fill and plump the skin so it appears firm, lifted and toned, and lines and wrinkles are smoothed.

Antioxidants **AO**

Multiple antioxidants such as Vitamin E, Polyhydroxy Acids and superfruits, including pomegranate, blueberry and acai, offer a broad spectrum approach to neutralize free radicals from exposure to environmental stressors such as UV light and pollution. Grape seed extract in particular is a very potent antioxidant that can **help prevent oxidative damage**.

NeoGlucosamine™ **N**

NeoGlucosamine™, a building block of skin's own natural filler, **is clinically proven to plump and firm the skin**, creating a smoother, less lined and more lifted look. This patented non-acid amino sugar technology also gently exfoliates to promote cell turnover, diminishing the appearance of dark spots from age or acne, reducing pore size and improving overall clarity and radiance.

NEW! Exuviance® Age Reverse

Look undeniably younger with a powerful regimen of multitasking formulas that target all the signs of skin aging. EXUVIANCE AGE REVERSE helps lift and firm sagging skin, evens appearance of skin discoloration, restores a smooth, youthful surface texture and helps prevent future skin aging damage. Because no single ingredient can address all the signs of aging skin, the creators of EXUVIANCE AGE REVERSE developed multitasking formulas with OptiSpectra, a proprietary complex of powerful and clinically proven state of the art ingredients. The carefully selected spectrum of ingredients for each formula is designed to work synergistically for optimal results.

AGE REVERSE is formulated to help rebuild collagen and skin's support matrix, fight oxidative and environmental damage, stimulate cell renewal, resurface top layers and strengthen skin's protective barrier.

UNDENIABLE RESULTS

Take control of your skin's aging process with dermatologist developed EXUVIANCE AGE REVERSE, clinically proven to visibly reverse all the signs of aging such as sagging skin, the look of deeper wrinkles and discoloration.

After only 4 weeks of use, participants in a clinical study began to notice improvements in firmness, lines, wrinkles and brown spots. After 12 to 16 weeks, the result was undeniable.

After 4 weeks of using AGE REVERSE, study participants reported*

- 94% skin is firmer
- 96% skin looks and feels younger
- 92% fine lines are less noticeable
- 87% age spots appear lighter

AGE REVERSE

Exuviance® Age Reverse

BioActiv Wash 4.2 fl oz

Twice a day, jump start your routine with this creamy foaming cleanser, which contains a Polyhydroxy Acid blend, including patented Maltobionic Acid, to gently exfoliate, stimulate cell renewal and resurface skin texture, revealing a fresh, new complexion. The soap-free formula effectively cleans and removes makeup without irritating skin. Botanical extracts of aloe, rose, chamomile, rosemary and cucumber refresh and soothe the skin. Skin is clear, smooth and prepped for the maximum benefits of the Age Reverse regimen. Suitable for all skin types.

Day Repair SPF 20 Net wt. 1.75 oz

The unique Day Repair formula contains everything you need to restore youthful firmness and an even complexion. A triple antioxidant complex of pomegranate, Vitamins A and E fend off free radicals and shields skin from daily environmental aggressors, allowing the repair cycle to begin. A firming complex including peptides boosts collagen, while retinol and NeoGlucosamine™ lightly exfoliate, increase cell renewal, and diminish the appearance of uneven pigment and age spots. The result is visibly refined skin texture and a more even, luminous youthful complexion.

Eye Contour Net wt. 0.5 oz

Eye Contour's unique combination of super potent ingredients targets droopiness and sagging, to give the eye area new definition and a more contoured look. Patented Maltobionic Acid alleviates appearance of crow's feet and Gluconolactone helps cushion skin to hide dark circles, without irritating the delicate eye area. Caffeine deflates puffiness, while hyaluronic acid acts as a moisture magnet, keeping skin soft and supple. Eyes look luminous, redefined and lifted with visibly diminished signs of fatigue and aging.

97% reduces puffiness

88% increases firmness

Night Lift Net wt. 1.75 oz

Night Lift's unique multitasking formula of peptides, Alpha Hydroxy and Polyhydroxy Acids stimulates collagen production to strengthen skin's structure overnight, for skin that's firmer, less lined, and undeniably younger looking. An intensive dose of multi-antioxidants, including Grape Seed Extract and Maltobionic Acid, combine to limit oxidative damage, neutralize free radicals and help prevent the breakdown of collagen and elastin. Gluconolactone strengthens skin's protective barrier while you sleep, so skin will be less susceptible to daily environmental stress.

97% improves overall appearance

93% firmness is increased

Cleanse Moisturizing Antibacterial Facial Cleanser 7.2 fl oz

P VIT b5

Promote a clean, clear complexion with this scrupulously thorough foaming cleanser that helps maintain a trouble-free complexion. Specially formulated to cleanse deeply and draw out impurities that can settle on skin. Normalizes surface oils and reduces blemish-causing bacteria. With Polyhydroxy for antiaging benefits and a blend of light conditioners and chamomile to soothe, protect and balance skin.

Treat Clear & Smooth Daily Exfoliating Anti-Blemish Pads 36 single use pads - 1.35 fl oz

A

Treat skin with a one-step solution to control acne and smooth skin texture. A blend of Alpha Hydroxy Acid and Salicylic Acid enhances exfoliation, controls oiliness, diminishes pore size, clears blemishes and prevents new ones from forming. Follow cleansing with these easy to use pads and smooth the way to a clearer, fresher complexion.

Treat Blemish Treatment Gel Net wt. 0.5 oz

A VIT e

Treat troubled skin with this targeted solution for skin imperfections and blemishes. A concentrated formula of Pro-Vitamin A and blemish-fighting Salicylic Acid helps to control excess oil, refines pores and targets blemishes on the spot to promote a clear, smooth, healthy-looking complexion.

Day Matte Perfection Net wt. 1 oz

A P

Create an instant matte finish, control shine and minimize the appearance of pores. This light oil-free gel absorbs excess oil and provides an instant matte look to oily skin. Contains Mandelic Acid, found naturally in almonds, for effective oil control and smooth skin. Glides easily over or under moisturizer, under makeup as a primer, or patted on over makeup later in the day to impart a fresh matte look.

Day Sheer Refining Fluid SPF 15 1.75 fl oz

N 

Smooth uneven tone and discoloration, improve firmness and diminish the appearance of fine lines. This light, non-greasy pH balanced fluid is the perfect daily base for oily skin. Formulated with Phytol[®], a botanical blend that helps control oiliness without irritation. Contains our patented NeoGlucosamine[™], clinically proven to help reduce the appearance of dark spots from age or acne, and improve firmness for younger looking skin. Contains broad spectrum sunscreen protection.

Night Night Renewal HydraGel Net wt. 1.75 oz

A P

Refine skin texture, clarity and pore size, reduce the look of dark spots and smooth the appearance of fine lines and wrinkles. This light, silky hydrating gel contains Phytol[®], a botanical blend of oil-reducing ingredients to help reduce oiliness, while an elegant blend of Polyhydroxy and Alpha Hydroxy Acids (PHA/AHA) helps to renew and repair skin while you sleep.

91% smooth after feel
81% retained matte appearance
77% less oily and smaller pores
