

PerpetualGreen's Corporate Overview

PerpetualGreen™ is an industry leader in renewable and energy saving systems.

About Us

Founded in 2008, PerpetualGreen, LLC custom designs and manufactures EnergySave™ Systems which reduce electrical costs in homes and businesses an average of 25% each month. Our renewable and energy efficient technologies make being “green” easy and surprisingly affordable.

PerpetualGreen is ahead of the curve with patented technology that completely changes the way electricity is consumed. Our inventions are based on proven electrical technology that we combine with energy management. When savings are measured, savings improve. We intelligently track renewable energy *and* energy efficiency, to provide you the best value for your dollar.

We are committed to using American-made parts and local suppliers whenever possible. We continually incorporate sustainable energy- and money-saving technologies into our products and services that increase our value. We are creating jobs with our partners – solar installers, energy efficiency consultants, electricians, metal fabricators, painters, printers, packaging companies, and fulfillment houses.

Mission

Our mission is to change the world as an innovator at the forefront of the green economy. We help to reduce pollution, provide green jobs, and save electrical costs for our clients.

Leadership

Brent Ivie, CEO – Inventor, Founder, Design & Manufacturing
Gordon Furness, COO – Executive Director Partners and Products
Jacqueline Zielenski, VP National Sales & Marketing – Partner Support
